CRIME

HB 1677 Seitz

Establishes provisions relating to mental health evaluations upon arrest

This bill requires mental evaluations to determine whether someone is competent to be tried, convicted, and sentenced in a criminal proceeding to be completed within forty-five days of an individual's arrest. If the evaluation indicates treatment at a mental health facility is necessary the transfer is required to occur within forty-five days of the evaluation. If either is not completed within forty-five days, the responsible entity will provide good cause to the prosecuting attorney or arresting entity. Beginning January 1, 2027, the Department of Mental Health will provide an annual report to the general assembly summarizing compliance.

HB 2629 Murray

Modifies provisions relating to the abuse or neglect of vulnerable persons

This bill requires long-term care facilities to maintain liability insurance coverage in a minimum amount of $1 million dollars to insure against losses from the negligent or criminal acts of the facility constituting abuse,

neglect, or wrongful death of any resident, except as specified. The Department of Health and Senior Services is required to display an abuse and neglect icon next to the informational listing on its website of any long-term care facility that has a substantiated finding of abuse or neglect, as described in the bill. The Department of Health and Senior Services will provide the results of any substantiated report of a facility resident's abuse or neglect to the General Assembly and the Lieutenant Governor. The bill creates an enhanced penalty of a class E felony when the person committing the offense is a care provider and he or she knowingly acts or knowingly fails to act in a manner that creates a substantial risk to the life, body, or health of an elderly person, a person with a disability, or a vulnerable person.

SB 910 Schnelting
Modifies provisions relating to the abuse or neglect of vulnerable persons

This act requires long-term care facilities to maintain liability insurance coverage in a minimum amount of $1 million dollars to insure against losses from the negligent or criminal acts of the facility constituting abuse, neglect, or wrongful death of any resident, except as otherwise provided in the act. This act requires the Department of Health and Senior Services to display an abuse and neglect icon next to the informational listing on its website of any long-term care facility that has a substantiated finding of abuse or neglect, as described in the act. Additionally, the Department shall provide the results of any substantiated report of a facility resident's abuse or neglect to the General Assembly and the Lieutenant Governor, consistent with existing requirements for providing access to abuse and neglect complaints and results of investigations. Currently, the offense of abuse of an elderly person, a person with a disability, or a vulnerable person is a class A misdemeanor. This act creates an enhanced penalty of a class E felony when the person committing the offense is a care provider and he or she knowingly acts or knowingly fails to act in a manner that creates a substantial risk to the life, body, or health of an elderly person, a person with a disability, or a vulnerable person.

SB 1463 Crawford

Modifies procedures regarding mental capacity to be tried or convicted
In criminal proceedings involving one or more nonviolent misdemeanors, if a judge has reasonable cause to believe that the accused lacks mental fitness to proceed, this act authorizes the judge to direct the director of the Department of Mental Health to have the accused assessed by a mental health professional for necessary community treatment services or involuntary commitment. The Department shall establish standards and training for the assessments. Any assessment shall be completed within fourteen days unless the court orders otherwise. In such cases, the charges against the accused shall be dismissed after no less than six months following successful participation in treatment services, but no longer than the maximum amount of time the accused would have served if convicted.

EDUCATION

HB 1639 Overcast
Establishes the "Missouri Pathways to Access and Success Act"

This bill requires higher education institutions to adopt policies regarding documentation that will be accepted as proof of disability for current or incoming students for determining need for accommodations. It also requires that the policy include information about the accommodation eligibility process. The bill states how and when the information will be disseminated to students, parents, and faculty. Licensing boards are required to grant accommodations for a professional licensing exam unless providing the accommodation causes undue hardship or fundamentally alters the nature of the examination if the need for a specific accommodation is stated by a qualified treating professional. It also states what is presumed eligibility, an appeals process for denials. Licensing bodies must annually report accommodation data outlined in the bill to the Department of Commerce and Insurance. The data will be posted on the Department of Commerce and Insurance website.

HB 2604 Pollitt

Establishes transfer procedures to nonresident districts for students in public schools

This bill creates a public school open enrollment program. It allows a student to attend school in a school district where he/she is not a resident. School districts are not required to participate and must determine by November 1 of each year whether they will participate for the next school year. Each participating school district's school board will adopt application acceptance and rejection standards. The bill specifies what can and cannot be included in the standards. A student's disabilities cannot be included. Districts can put limits on the number of students who can transfer from the district. The Department of Elementary and Secondary Education will create an online searchable database for schools to use. It specifies the processes that must be followed if a student wishes to transfer with special education services or plans. It requires districts being served by a special school district to enter a form agreement with the special school district before entering open enrollment. School districts will determine the number of transfer of students it is able to receive. A fund is created which will provide reimbursements to schools which participate in the program.

HB 2872 Loy
Creates, repeals, and modifies provisions relating to literacy of elementary school students

Only the parts related to people with disabilities are summarized.

This bill requires the Department of Elementary and Secondary Education (DESE) to give each school district and charter school $500 for each fourth grade student who exhibited a substantial reading deficiency in any of grades kindergarten to grade three, or who was identified as dyslexic, and who subsequently scores at the proficient level or higher in reading on the annual summative English language arts assessment administered to fourth grade students. The act establishes the "Missouri Universal Reading Screener. The screener will score each student in one of the following categories: "below basic", "basic", "grade-level", "proficient", or "advanced". Proficiency benchmarks associated with these categories shall be determined by DESE. School districts and charter schools shall assess all students in grades first through third on the Missouri Universal Reading Screener during three annual administration windows established by DESE. DESE shall provide the screener to school districts and charter schools at no cost. The screener may also be used to comply with

dyslexia screening requirements established in current law. Student results on the screener shall not be used to make decisions concerning the accreditation of a public school or school district. The act repeals a provision requiring school districts and charter schools to assess newly enrolled students in grades first through fifth on a reading assessment selected from a state-approved list. A student who scores "basic" on the Missouri Universal Reading Screener shall be identified as having a reading deficiency. A student who scores "below basic" on the screener shall be identified as having a substantial reading deficiency.

A school district or charter school shall notify the parent of a student with a substantial reading deficiency that if the child's substantial reading deficiency is not corrected by the end of third grade, the child shall not be promoted to fourth grade unless the child qualifies for a good cause exemption. Retention of a third-grade student with a substantial reading deficiency is mandatory unless the child qualifies for a good cause exemption or scores "basic" or higher on a retest opportunity through the Missouri Universal Reading Screener. A good cause exemption may be granted to students who have individualized education plans or 504 plans developed under federal law. A good cause exemption may also be granted to a student who has already been retained at least once in kindergarten to third grade. To request a good cause exemption, a student's teacher shall submit documentation to the school principal recommending the student's promotion, including the type of exemption being requested and the child's existing reading improvement plan or individualized education plan, as appropriate. The school principal shall discuss the recommendation with the teacher and determine whether the student qualifies for a good cause exemption. If the school principal determines that the student qualifies for the good cause exemption, the school principal shall make such recommendation in writing to the superintendent, who shall accept or reject the school principal's recommendation in writing. The school district shall assist schools with notifying parents of students who are retained of the reasons for the retention, along with a description of the proposed interventions and supports that will be provided to the child to remedy the identified area or areas of reading deficiency in the following school year. Intensive reading instruction provided to students exhibiting a reading deficiency or substantial reading deficiency shall not include the three-cueing system, as defined in current law, to teach word reading. By October 1 annually, each school board shall report in writing to DESE certain information regarding reading instruction, such as the board's policies regarding student retention and promotion, the number and percentage of students identified as having reading deficiencies or substantial reading deficiencies, the number and percentage of all students retained in kindergarten to third grade due to substantial reading deficiencies, and the total number and percentage of third-grade students who were promoted with good cause exemptions, as provided in the act.

SB 906 David Gregory

Creates, modifies, and repeals provisions relating to student transfers to nonresident districts

Under the act, any student may transfer to another public school, including transfers from a student's district of residence, or "sending district", to a public school in a nonresident district, or "receiving district", beginning in the 2027-28 school year and in all subsequent school years. The school board of each school district shall determine the district's capacity to accept student transfers in each grade level and in each school in the district. Each school board shall provide this information to the Department of Elementary and Secondary Education (DESE) beginning on July 15, 2027, and by the first day of each month thereafter. DESE shall publish and update the capacity of each district's grade levels and schools on its website. Parents of students who wish to transfer shall notify DESE by August 1, 2027, and by the first day of each month thereafter, and DESE shall assign

students to a receiving district or charter school as provided in the act. A receiving district shall accept all students who apply and are assigned to the district, so long as there is capacity for each student. School board policies shall not discriminate against any transfer student on the basis of his or her residential address, academic performance, athletic ability, disability, race, ethnicity, sex, or free and reduced price lunch status. The act repeals provisions that require sending districts to make tuition payments to receiving districts. Instead, for purposes of calculating state and federal aid, each transfer student shall be counted as a resident of the receiving district in which the student is enrolled. Tuition shall not be charged to any student or to his or her parent or legal guardian. DESE shall designate at least one receiving district or charter school to which each sending district shall provide transportation. A sending district shall be required to provide transportation only to the school district or charter school designated by DESE. If the receiving district is part of a special school district, the sending district shall contract with the special school district for the entirety of the costs to provide special education and related services, excluding transportation. The special school district may contract with a sending district for transportation, or the sending district may provide transportation on its own. The act outlines school districts' responsibilities for the provision of special education and related services to students with disabilities. A special school district shall continue to provide special education and related services, excluding transportation, to students with disabilities who transfer to another school within the special school district. If the sending district is a metropolitan school district, it shall remain responsible for providing special education and related services, including transportation, to students with disabilities who transfer to a receiving district. A special school district in an adjoining county to a metropolitan school district may contract with the metropolitan school district for the reimbursement of special education and related services provided by the special school district for transfer students. A receiving district that is not part of a special school district shall not be responsible for providing transportation to transfer students, regardless of whether transportation is identified as a related service within a student's individualized education program. A sending district may contract with a receiving district that is not part of a special school district for transportation of students with disabilities. A seven-director or urban school district may contract with a receiving district that is not part of a special school district in the same or an adjoining county for the reimbursement of special education and related services provided by the receiving district.

SB 1014 Nurrenbern

Modifies the "Jason Flatt/Avery Reine Cantor Act" and repeals and modifies provisions relating to mental health efforts in public schools

Beginning in the 2027-28 school year and continuing in subsequent school years, this act modifies the "Jason Flatt/Avery Reine Cantor Act" by adding a requirement for school districts to provide at least two hours of suicide prevention training to all licensed educators. For the 2028-29 school year and all subsequent school years, such training shall include risk and protective factors, warning signs, response procedures, and postvention support, as the term "postvention" is defined in the act. The Department of Elementary and Secondary Education (DESE) shall include such information in its guidelines for training or professional development in youth suicide awareness and prevention. The act repeals provisions requiring public schools and charter schools to print certain contact information on identification cards for pupils in grades 7-12. By July 1, 2027, pupil identification cards shall include only the three-digit dialing code for the Suicide and Crisis Lifeline, 988. Any unissued cards that include additional contact information shall continue to be issued until the supply of cards is depleted. For the 2028-29 school year and all subsequent school years, each school district shall

update its policy on youth suicide awareness and prevention training for school district employees to include risk and protective factors, warning signs, response procedures, and postvention support. The corresponding model policy currently developed by DESE shall be updated accordingly. Finally, beginning in the 2027-28 school year and in each subsequent school year, the act requires each pupil in a public school to receive mental health awareness training at any time in grades 5-8. Such instruction shall be included in the school district's existing health or physical education curriculum and shall be based on a program established by DESE.

SB 1028 Brattin
Establishes provisions regarding elementary and secondary education

Only the part related to people with disabilities is summarized.

This act creates the "Parents' Bill of Rights Act of 2026." Under this act, no school district shall deny to the parent or guardian of a minor child certain rights. Such rights include the ability to fully review the curricula, books, and other educational materials used by the school attended by their child; the ability to access information on teachers, guest lecturers, and outside presenters who engage with students at the school; the ability to access information on third-party individuals and organizations that receive contracts or other funding through the school; the right to visit their child at school during school hours; the right to access all records generated by the school that concern their child; the ability to access information pertaining to the collection and transmission of data regarding their child; the right to be heard at school board meetings; the right to be notified of situations affecting the safety of their child at school; and the right to object to certain materials that the parent finds inappropriate to be taught to their child. Any person denied one of these rights may bring a civil action for injunctive relief. The attorney general may also bring a civil action for injunctive relief. If a school district is found to have violated this act, the Department of Elementary and Secondary Education may withhold up to fifty percent of the state aid for such district.

SB 1155 Nurrenbern
Establishes the "Missouri Respond, Innovate, Succeed and Empower (RISE) Act" relating to accommodations for students with disabilities at public institutions of higher education

This act creates the "Missouri Respond, Innovate, Succeed, and Empower (RISE) Act". Under this act, a public institution of higher education shall adopt a policy that specifies the types of documentation the institution shall accept to determine a student's eligibility for disability accommodations. The act lists the types of documentation that shall be accepted, including documentation related to Individualized Education Programs (IEPs) and 504 plans developed under federal law, provided that any IEP or 504 plan documentation shall represent an ongoing need for disability accommodations that has not ended. An institution may set simpler criteria than those specified in the act to determine whether a student qualifies as an individual with a disability. The policy shall clearly outline the process for determining eligibility for disability accommodations. This information shall be shared with students, parents, and faculty in accessible formats and made available on the institution's website.

SB 1442 Hudson

Creates, repeals, and modifies provisions relating to literacy of elementary school students

Only the parts related to people with disabilities are summarized.

Subject to appropriation, DESE shall remit to each school district and charter school $500 for each fourth grade student who exhibited a substantial reading deficiency in any of grades kindergarten to grade three, or who was identified as dyslexic, and who subsequently scores at the proficient level or higher in reading on the annual summative English language arts assessment administered to fourth grade students. The act establishes the "Missouri Universal Reading Screener", a uniform, universal, literacy-based reading assessment administered to students in grades 1-3 three times per year in every school district and charter school in the state. The screener shall score each student in one of the following categories: "below basic", "basic", "grade-level", "proficient", or "advanced". Proficiency benchmarks associated with these categories shall be determined by DESE. School districts and charter schools shall assess all students in grades 1-3 on the Missouri Universal Reading Screener during three annual administration windows established by DESE. DESE shall provide the screener to school districts and charter schools at no cost. The screener may also be used to comply with dyslexia screening requirements established in current law. Student results on the screener shall not be used to make decisions concerning the accreditation of a public school or school district. The act repeals a provision requiring school districts and charter schools to assess newly enrolled students in grades 1-5 on a reading assessment selected from a state-approved list. A student who scores "basic" on the Missouri Universal Reading Screener shall be identified as having a reading deficiency. A student who scores "below basic" on the screener shall be identified as having a substantial reading deficiency. A school district or charter school shall notify the parent of a student with a substantial reading deficiency that if the child's substantial reading deficiency is not corrected by the end of third grade, the child shall not be promoted to fourth grade unless the child qualifies for a good cause exemption. Retention of a third-grade student with a substantial reading deficiency is mandatory unless the unless the child qualifies for a good cause exemption or scores "basic" or higher on a retest opportunity through the Missouri Universal Reading Screener, as provided in the act. A good cause exemption may be granted to students who are English language learners or who have individualized education plans or 504 plans developed under federal law. A good cause exemption may also be granted to a student who has already been retained at least once in kindergarten to third grade. To request a good cause exemption, a student's teacher shall submit documentation to the school principal recommending the student's promotion, including the type of exemption being requested and the child's existing reading improvement plan or individualized education plan, as appropriate. The school principal shall discuss the recommendation with the teacher and determine whether

the student qualifies for a good cause exemption. If the school principal determines that the student qualifies for the good cause exemption, the school principal shall make such recommendation in writing to the superintendent, who shall accept or reject the school principal's recommendation in writing. The school district shall assist schools with notifying parents of students who are retained of the reasons for the retention, along with a description of the proposed interventions and supports that will be provided to the child to remedy the identified area or areas of reading deficiency in the following school year. Intensive reading instruction provided to students exhibiting a reading deficiency or substantial reading deficiency shall not include the three-cueing system, as defined in current law, to teach word reading. By October 1 annually, each school board shall report in writing to DESE certain information regarding reading instruction, such as the board's policies regarding student retention and promotion, the number and percentage of students identified as having reading deficiencies or substantial reading deficiencies, the number and percentage of all students retained in kindergarten to third grade due to substantial reading deficiencies, and the total number and percentage of third-grade students who were promoted with good cause exemptions, as provided in the act.

SB 1483 Henderson
Creates, repeals, and modifies provisions relating to elementary and secondary schools

Only the part related to people with disabilities is summarized.

Under this act, charter school students served in a special school district in St. Louis County shall be included in the calculation of the special school district's weighted membership and weighted average daily attendance, as such terms are defined in current law, in the same manner that students of the component school districts of the special school district are currently calculated. The definition of "special education pupil count" as used in the foundation formula is modified by specifying that students who are enrolled in a charter school but receiving services from a special school district in St. Louis County shall be included in the pupil count of the special school district instead of that of the charter school. Charter schools shall be responsible for early childhood special educational services, except for charter schools that are part of special school districts. The act adds charter schools located within a special school district to a provision that neither the State Board of Education nor any school district within a special school district shall be obligated to establish schools or classes for children with disabilities under any other law that might otherwise impose such requirements. Following the formation of a new special school district, charter schools, in addition to the component districts of the special district and the State Board of Education, shall be required to continue providing whatever services they had previously furnished to children residing in the special district, but only until the special district has adequate resources to assume those responsibilities or for no more than one school term after the special district's formation, whichever comes first.

SB 1496 Kurtis Gregory
Creates, repeals, and modifies provisions relating to elementary and secondary education

Only the parts related to people with disabilities are summarized.

The act authorizes the General Assembly to fund student scholarships through the Missouri Empowerment Scholarship Accounts Program by appropriating funds to the Missouri Empowerment Scholarship Accounts fund. Such scholarships shall be awarded in an order and in amounts established in current law and shall be governed through parent agreements with educational assistance organizations as provided in current law. No provision of law relating to the Missouri Empowerment Scholarship Accounts Program shall be construed to limit the appropriation authority of the General Assembly. The cumulative amount of tax credits that may be allocated in any one calendar year is doubled, increasing from $75 million to $150 million. There shall be a maximum of 15 educational assistance organizations, rather than 10, in any school year. No more than 11 of such organizations, rather than 7, shall have their principal place of business in Greene County, Jackson County, St. Charles County, St. Louis County, or the City of St. Louis. Where capacity is available, a charter school shall enroll all students who transfer under the Missouri Empowerment Scholarship Accounts Program. A charter school may receive tuition payments from such students. The definition of "qualified student" is modified by repealing provisions requiring students to have an individualized education plan developed under federal law or to be a member of a household with a total annual income that does not exceed 300% of the income standard used to qualify for free and reduced price lunches. Under this act, charter schools may be operated in any school district in the state. Where capacity is available, a charter school shall enroll all students who transfer under the Missouri Empowerment Scholarship Accounts Program or who enroll under provisions of the act authorizing student transfers among school districts and charter schools. A charter school may receive tuition payments from such students. Under the act, any student may transfer to another public school or charter school, including transfers from a student's district of residence ("sending district") to a public school in a nonresident district ("receiving district"), beginning in the 2027-28 school year and in all subsequent school years. Each school board shall adopt a policy to determine its transfer capacity for each grade level and school no later than October 27, 2026. The policy shall be publicly posted on the school district's website. By July 15, 2027, and by the first of each month thereafter, each school district shall report to the Department of Elementary and Secondary Education (DESE) the number of available enrollment slots by grade level and school and the school district's average per pupil expenditure. This information shall also be published in a prominent and publicly accessible place on the school district's website. DESE shall publish and update each school district's transfer capacity on an online portal accessible via the DESE website. The portal shall be updated at least monthly and shall include a search function for users to identify schools with capacity to accept transfer students near their home address. Parents of students who wish to transfer shall notify DESE by August 1, 2027, and by the first day of each month thereafter, and DESE shall assign students to a receiving district or charter school as provided in the act. A receiving district shall accept all students who apply and are assigned to the district, so long as there is capacity for each student. School board policies shall not discriminate against any transfer student on the basis of such student's residential address, academic performance, athletic ability, disability, race, ethnicity, sex, or free and reduced price lunch status. If a request for transfer is denied, an appeal may be taken to the State Board of Education by sending the appeal by certified mail to the superintendent of the receiving school district and to the State Board of Education. Any appeal not heard by the State Board of Education within 60 calendar days shall be deemed granted with immediate effect. DESE shall develop forms for filing appeals, and the State Board of Education shall promulgate rules to establish the appeals process. The act repeals provisions requiring sending districts to make tuition payments to receiving districts. Instead, for purposes of calculating state and federal aid, each transfer student shall be counted as a resident of the receiving district in which the student is enrolled. Tuition shall not be charged to any student or to his or her parent or legal guardian. If the receiving district is part of a special school district, the sending district shall contract with the special school district for the entirety of the

costs to provide special education and related services, excluding transportation. The special school district may contract with a sending district for transportation, or the sending district may provide transportation on its own. The act outlines school districts' responsibilities for the provision of special education and related services to students with disabilities. A special school district shall continue to provide special education and related services, excluding transportation, to students with disabilities who transfer to another school within the special school district. If the sending district is a metropolitan school district, it shall remain responsible for providing special education and related services, including transportation, to students with disabilities who transfer to a receiving district. A special school district in an adjoining county to a metropolitan school district may contract with the metropolitan school district for the reimbursement of special education and related services provided by the special school district for transfer students. A receiving district that is not part of a special school district shall not be responsible for providing transportation to transfer students, regardless of whether transportation is identified as a related service within a student's individualized education program. A sending district may contract with a receiving district that is not part of a special school district for transportation of students with disabilities. A seven-director or urban school district may contract with a receiving district that is not part of a special school district in the same or an adjoining county for the reimbursement of special education and related services provided by the receiving district. Where capacity is available, a charter school shall enroll all students who transfer under these provisions. A charter school may receive tuition payments from such students. DESE shall designate at least one receiving district or charter school to which each sending district shall provide transportation. A sending district shall be required to provide transportation only to the school district or charter school designated by DESE.

SB 998 Hudson
Creates, repeals, and modifies provisions relating to the Missouri Empowerment Scholarship Accounts Program

The act changes the definition of "illegal alien" to "legal resident" as set forth under federal law. The act modifies the definition of "qualified student" by removing the requirement for a qualified student to have attended a public school during the previous 12 months, as well as removing requirements relating to students' kindergarten eligibility and siblings who participate in the program. Such definition is further modified by adding disability diagnoses to requirements concerning individualized education plans. The act provides that an organization representing a group of parents of qualified students may intervene on behalf of such parents as a defendant in any action in which any provision of state law, the Missouri Constitution, or a state regulation involving the program is at issue. An organization that intervenes as provided in the act shall have the right to file such pleading necessary on behalf of such parents. Finally, except as specifically provided in state law, the act prohibits the creation or enforcement of any rule, regulation, or other requirement that conditions a qualified school's participation in the program on accreditation or compliance with any other requirement. Any rule, regulation, or other requirement that violates this provision is void and shall have no force or effect.

SB 1048 Fitzwater

Creates the "Missouri Disabled Veterans' Dependents Tuition Waiver" to provide college tuition waivers for the children, stepchildren, and spouses of certain veterans

Only certain parts are summarized.

This act creates the "Missouri Disabled Veterans' Dependents Tuition Waiver" to provide college tuition waivers for the children, stepchildren, and spouses of certain veterans. The act defines an "institution" as including any state college or university or public community college that receives appropriations from the General Assembly for operating expenses and satisfies certain other conditions established in current law. A dependent of a veteran shall be eligible to receive a waiver of tuition and fees at an institution, up to a maximum that shall not exceed the amount of tuition charged a Missouri resident at the University of Missouri-Columbia for attendance, if the dependent has a parent, stepparent, or spouse who is or was a member of the Armed Forces of the United States who died on active duty, died of a service-connected disability, died after discharge from the military as a result of injury or illness, is rated as permanently and totally disabled by the United States Department of Veterans Affairs, or is classified as missing in action or a prisoner of war. For a dependent who is the child or stepchild of such a veteran, the act specifies that the dependent shall be under 26 years old unless the dependent serves on active duty with the Armed Forces of the United States, in which case the eligibility period shall be extended a maximum of five years, up to the dependent's 31st birthday. A tuition waiver shall be valid for one degree, diploma, or certificate from a community college and one baccalaureate degree from a state college or university. Receipt of a degree, diploma, or certificate from a community college shall precede receipt of a baccalaureate degree. A recipient of a tuition waiver may transfer from one institution to another without losing entitlement to the tuition waiver.

SB 1071 David Gregory

Modifies provisions relating to the Missouri Empowerment Scholarship Accounts Program

The act modifies the definition of "qualified student" under the Program to include any resident of this state who is not an illegal alien and who is eligible to enroll in a public school or to receive early childhood special education services. The act repeals requirements relating to students' individualized education plans or household income. The act specifies that scholarship funds may be used to purchase technological devices such as calculators and personal computers, but not devices used primarily for noneducational purposes, such as televisions and telephones. Additionally, scholarship funds may be used to purchase a commuter pass for a qualified student, rather than covering only mileage costs to and from a qualified school. Provisions relating to agreements with educational assistance organizations shall not be construed to require a qualified student (a) to withdraw from a public school before applying for a scholarship account if the student withdraws from the school before receiving any moneys in his or her scholarship account, or (b) to prevent a qualified student from applying for a scholarship account to be funded beginning in the following school year. Finally, the Missouri Empowerment Scholarship Accounts Program shall not be construed to expand the regulatory authority of the state, its officers, or any school district, with respect to the imposition of any additional requirements or restrictions on qualified schools, beyond those necessary to enforce the requirements of the Program.

SB 1203 Schnelting
Modifies provisions relating to taxation

Only the parts related to people with disabilities are summarized.

Current law allows for an inflationary growth factor in assessed valuation for the purposes of calculating property tax levies, with such growth factor not to exceed the lesser of the consumer price index or five percent. This act reduces the allowable growth factor to the lesser of the consumer price index or three percent. Current law considers any aggregate increase in valuation of personal property over the previous year as new construction and improvements for the purposes of calculating property tax levies. Beginning January 1, 2027, this act provides that such amounts shall not be considered new construction and improvements. Current law requires that personal property be assessed at 33.3% of its true value in money. Beginning January 1, 2027, this act reduces such percentage to 32%. his act provides that, for all tax years beginning on or after January 1, 2027, there shall be a flat income tax rate of either 4.7% or 4.6% on all taxable income. Beginning with the 2027 calendar year, the rate of tax may be reduced by at least 0.1%, but by no more than 1.0%, if the amount of net general revenue collections in the previous fiscal year exceeds the highest amount of such collections from any of the three previous fiscal years by at least $175 million. The eventual rate of tax if all reductions authorized by the act and by current law are made shall be 3.4% or 3.3%. For all tax years beginning on or after January 1, 2027, this act provides that the Missouri standard deduction shall be equal to the federal standard deduction plus $4,000. Current law authorizes an income tax credit in an amount equal to a percentage of the taxpayer's federal earned income tax credit. This act repeals such tax credit. his act provides that a taxpayer shall not be liable for penalties or interest on an income tax balance due if such taxpayer is denied part or all of a tax credit to which the taxpayer has qualified pursuant to any provision of law due to lack of available funds, and such denial causes a balance-due notice to be generated by the Department of Revenue or any other redeeming agency. Such taxpayer shall pay the balance due within sixty days or be subject to penalties and interest pursuant to current law.

For all tax years beginning on or after January 1, 2027, this act authorizes a taxpayer to claim a tax credit in an amount equal to one hundred percent of qualified expenses incurred during the tax year for educating a qualified student in a nonpublic school, as such term is defined in the act, provided that no tax credit shall exceed the state adequacy target. Tax credits authorized by the act shall not be transferred, sold, or assigned, but are refundable. A tax credit shall not be issued for any qualified expenses paid for using a Missouri Empowerment Scholarship account. To be eligible for a tax credit, a taxpayer shall have enrolled a qualified student in a nonpublic school during the tax year, and shall not have enrolled a qualified student in the taxpayer's resident school district during the tax year for which the taxpayer is claiming a tax credit. Tax credits authorized by the act shall be claimed by the taxpayer at the time such taxpayer files a return. This act shall sunset on August 28, 2032, unless reauthorized by the General Assembly.

SB 1517 Hudson
Modifies provisions relating to property taxes

Only the parts related to people with disabilities are summarized.

This act modifies multiple provisions of current law to provide that any ballot measures proposing a new or increased real or personal property tax levy shall be submitted on a general election day and shall include certain information, as described in the act. This act provides that a political subdivision that adopts a tax abatement or similar economic incentive shall decrease any real property tax levy that is increased on property located in the political subdivision that does not receive an abatement. Current law provides that new construction and improvements shall not be included in the total assessed valuation for the purposes of calculating property tax levies. This act repeals such provisions. This act requires that if the voters in a political subdivision approve an increase to the tax rate ceiling prior to the expiration of a previously approved temporary levy increase, the new tax rate ceiling shall remain in effect only until such time as the temporary levy increase expires under the terms originally approved by a vote of the people, at which time the tax rate ceiling shall be decreased by the amount of the temporary levy increase. If, prior to the expiration of a temporary levy increase, voters are asked to approve an additional permanent levy increase, voters shall be submitted ballot

language that clearly indicates that if the permanent levy increase is approved, the temporary levy shall be made permanent. This act provides that, if the total assessed valuation in a political subdivision decreases in the tax year immediately following a tax year in which the voters approved an increase to the tax rate ceiling, such political subdivision may increase its levy such that the revenue received equals the amount that would have been received from the increased rate of levy had there been no decrease in the total assessed valuation. Current law allows counties to provide a property tax credit to certain seniors. This act requires counties to provide such credit and makes technical changes to the definitions of "eligible credit amount" and "eligible taxpayer". The act also requires the statement of tax due to include certain information about the proportional amount of the credit attributable to each taxing jurisdiction. Finally, the act provides that the credit shall apply to all property tax levies, including debt service levies. Current law also allows counties to provide a property tax credit to all other taxpayers, with certain counties able to annually increase the real property tax liability by five percent or the percent increase in inflation, whichever is greater. This act limits such increase to the lesser of the two amounts. Current law imposes a state property tax of $0.03 per $100 assessed valuation for the purposes of funding the Blind Pension Fund. This act eliminates such property tax upon the adoption of a constitutional amendment requiring the General Assembly to appropriate moneys to the Blind Pension Fund.

This constitutional amendment establishes the "Missouri Homestead Act". For all tax years beginning on or after January 1, 2027, this constitutional amendment, if approved by the voters, authorizes a taxpayer to claim an exemption from real property taxes imposed on the taxpayer's homestead, as such terms are defined in the amendment. To be eligible for a tax exemption, the homestead shall not be encumbered by a mortgage lien, the taxpayer shall not be delinquent on any state or local taxes, and the taxpayer shall prospectively pay five year's worth of property taxes owed on the homestead. To claim an exemption, the taxpayer shall provide notice to the collector by September 1. Upon filing the notice and providing evidence that the taxpayer satisfies all requirements, the homestead shall be exempt from property taxation for as long as the taxpayer owns the homestead. An exemption shall be void if the taxpayer sells or otherwise disposes of the property such that it no longer qualifies as a homestead, or by the taxpayer notifying the collector that the taxpayer wishes to void the exemption. The amendment imposes a state sales tax at a rate of 0.1%, with the revenues deposited in the "Homestead Preservation Fund", which is established by the amendment. Moneys in the fund shall stand appropriated and shall be used solely to reimburse taxing jurisdictions for revenue lost as a result of tax exemptions authorized by the amendment, as described in the amendment. The amendment provides for further rights to taxpayers owning a homestead and receiving a property tax exemption pursuant to the amendment, including the right to possess the homestead, to exclude others from the homestead, to enjoy the fruits and profits of the homestead, and to convey the homestead, as described in the amendment.

Replaces the property tax on real property with a sales tax

This constitutional amendment, if approved by the voters, prohibits counties and political subdivisions from levying or collecting a tax on real property beginning January 1, 2027. In lieu of such property tax, the amendment requires a county to impose a sales tax on the sale of real property at a rate equal to the total combined rate of state and local sales taxes in effect at the location of the property, provided that all revenues generated by the tax are collected and distributed by the county in the same manner as the property tax levied prior to January 1, 2027. A taxpayer shall select whether to remit the tax due upon the transfer of the title of the property, or to remit ten percent of the sales tax due to the county collector upon the transfer of title of the property, and the remainder within five, ten, or fifteen years in equal annual installments. Financial institutions that are mortgage servicers shall pay sales tax obligations which they service from escrow accounts in one payment by the required due date. This amendment also requires a taxpayer who purchases his or her real property prior to January 1, 2027, to remit a tax equal to the total combined rate of state and local sales taxes in effect at the location of the property multiplied by the remaining mortgage balance on such property, provided that all revenues generated by the tax are collected and distributed by the county in the same manner as the property tax levied prior to January 1, 2027. A taxpayer shall select whether to remit the tax due by December 31, 2027, 2032, 2037, or 2042, with such payment made in equal annual installments. Financial institutions that are mortgage servicers shall pay sales tax obligations which they service from escrow accounts in one payment by the required due date. This amendment repeals state law relating to income and sales taxes and replaces it with rates as provided in the amendment. From January 1, 2029 to January 1, 2031, the individual income tax rate shall not exceed three percent. Beginning January 1, 2031, the individual income tax shall be repealed. From January 1, 2029 to January 1, 2031, the state sales tax shall not exceed five percent except on food, which shall not exceed four percent. Beginning January 1, 2031, the total of the state sales tax, conservation sales tax, and the parks and soils sales tax shall not exceed seven percent except on food, which shall not exceed five and one-half percent. The General Assembly may increase taxes or fees in the event of an emergency. All sales tax revenue shall be deposited into the General Revenue Fund and appropriated by the General Assembly unless otherwise restricted by the constitution, except that a portion of the funds received shall be deposited into the School District Trust Fund. The amount deposited in such fund shall not be less than the average annual amount

deposited in the fund for fiscal years 2023-2027. The sales tax shall be imposed on all retail sales of new tangible personal property and all taxable services. All existing sales tax exemptions are repealed, other than those specifically listed in the amendment or those passed by a two-thirds majority of the General Assembly. The amendment requires all local sales tax rates to be recalculated to produce substantially the same amount of revenue as was produced on average for the five year period prior to January 1, 2029. Beginning January 1, 2031, the total of all sales taxes, including local taxes but excluding transportation development districts and community improvement districts, shall not exceed ten percent. Such rate may be exceeded if a local tax is approved by the voters or it is the temporary result of a recalculation of local taxes. This amendment also creates a property tax relief credit equal to fifty percent of the increase in taxes on a homestead to be used on the taxpayer's current property tax bill. To be eligible, the prior year's tax liability on the residence must have increased by more than five percent in a year of general reassessment or by more than two and one-half percent in a year without reassessment. To qualify for the credit, a taxpayer shall be at least sixty-five years of age; have total household income of no more than $75,000, adjusted annually based on the consumer price index; and own a residence of no more than $400,000 in appraised value, adjusted annually based on the consumer price index. Any taxpayer who claims this credit shall not also claim the Senior Citizen Property Tax Credit or any similar credit.

Modifies provisions relating to health care

Only the parts related to people with disabilities are summarized.

This act adds licensed long-term care facilities and child care facilities to the definition of "authorized entity" in current law permitting such entities to stock a supply of epinephrine delivery devices for use in an emergency. Additionally, the administration by technicians, nurses' aides, or their equivalent in long-term care facilities of epinephrine delivery devices and subcutaneous injectable medications to treat diabetes shall not be prohibited by nurse licensing laws. Under this act, the Department of Health and Senior Services may accept, in lieu of an inspection conducted by the Department, a written report of a survey or inspection conducted by any state or federal agency, provided the survey or inspection is comparable in scope or method to the Department's inspections and conducted in accordance with Title XVIII of the Social Security Act. A residential care or assisted living facility shall be subject to an inspection by the Department if the facility fails to maintain an accredited status by a recognized accreditation entity. Finally, if a facility exempt from an annual inspection under this act has one or more violations of any class I standards, then the facility shall be subject to a full inspection by the Department. This act requires that the fee for the professional component of clinical pathology services shall be paid by MO HealthNet for professional services provided by a hospital-based pathologist for inpatient clinical pathology services rendered to MO HealthNet patients. The reimbursement shall be set at thirty percent of the

approved outpatient simplified fee schedule based on Medicare's clinical laboratory fee schedule, as described in the act. This act establishes "Elijah's Law". Before July 1, 2028, each licensed child care provider shall adopt a policy on allergy prevention and response with a focus on potentially deadly food-borne allergies, as specified in the act. The Department of Elementary and Secondary Education shall develop a model policy or policies before July 1, 2027. This act removes the expiration date of August 28, 2026, from the "RX Cares for Missouri Program". This act provides that if an enrollee has an elevated risk of opioid misuse, as defined in the act, the enrollee's health benefit plan shall not deny coverage of a non-opioid prescription drug in favor of an opioid drug, require the enrollee to try an opioid drug before covering the non-opioid prescription drug, or require a higher level of cost-sharing for a non-opioid prescription drug than for an opioid drug. SB 1492 Bean
Establishes provisions relating to license reciprocity for physician assistants, including the Physician Assistant Licensure Compact

This act establishes provisions relating to licensure of physician assistants, including license reciprocity and the Physician Assistant Licensure Compact. Current law provides that any nonresident who enters the state and intends to practice as a physician assistant may apply for a license, provided that the applicant meets the requirements imposed by a certifying entity recognized by the Department of Commerce and Insurance. This act repeals this provision and instead provides that the State Board of Registration for the Healing Arts ("Board") shall waive, within six months, any examination, educational, or experience requirements for licensure to any person who holds a valid physician assistant license issued by another jurisdiction or branch of the Armed Forces of the United States and who has been licensed for at least one year if it determines that the person met the minimum requirements of the other state. The Board may require an applicant to take and pass an examination specific to Missouri law. For military spouses with licensure in another state, the Board shall waive such examination, educational, or experience requirements and issue a license within thirty days. The Board shall not waive any examination, educational, or experience requirements for any person who has a revoked license, is currently under investigation or disciplinary action, has a complaint pending, does not hold a license in good standing, has a criminal record which would disqualify the person from licensure in this state, or does not hold a valid current license in the other jurisdiction on the date of receipt by the Board of his or her application. Additionally, any person who is licensed under this act shall be subject to the Board's jurisdiction and all rules and regulations. Finally, this act shall not be construed to waive any requirement for fees of licensure. This act establishes the Physician Assistant Licensure Compact ("Compact"), which allows for the interstate licensure of

physician assistants. The Compact sets forth the requirements to be met in order for a state to join and maintain membership in the Compact. Additionally, the Compact provides the requirements for a physician assistant to obtain and exercise the ability to practice in the remote participating states.

HB 1694 Christensen
Establishes the "Act Against Abusive Website Access Litigation"

This bill creates the "Act Against Abusive Website Access Litigation". If an allegation is made that a website is in violation of the Americans with Disabilities Act ("ADA"), the Attorney General or an adversely affected resident of this State can file a civil action against the party, attorney, or law firm claiming that an ADA violation has occurred. The civil action will ask for a determination as to whether the alleged website access violation is abusive litigation. If the court determines that the litigation is abusive, the court can award reasonable attorney's fees and costs, and punitive damages not to exceed three times the amount of attorney's fees awarded by the court. To determine whether the ADA website access litigation is abusive, the court must consider the totality of the circumstances to determine if the primary purpose of the litigation is to obtain payment from the defendant due to the costs of defending the action in court. To make such a determination, the court can assess the following factors: (1) Whether the same plaintiff, attorney, or law firm has filed a high number of substantially similar actions without meaningful efforts to resolve or improve accessibility; (2) Whether the plaintiff provided the defendant with reasonable notice and an opportunity to correct the alleged

barrier prior to filing suit; (3) Any history of sanctions or findings of bad faith against the plaintiff or counsel; (4) Whether the filing party or lawyer filing the litigation is a resident of this State or is licensed to practice law in this State; (5) The nature of settlement discussions and the reasonableness of settlement offers and refusals to settle; and (6) Whether the plaintiff or the lawyer filing on behalf of the plaintiff violated Missouri Supreme Court rules pertaining to the signing all pleadings and motions. If the defendant who is alleged to have violated the ADA's rules on website access in good faith attempts to correct the alleged violations within 90 days after receiving written notice, the defendant will have a rebuttable presumption that any subsequent claim for a website accessibility violation is abusive. The rebuttable presumption can be overcome by showing that the defendant failed to complete reasonable corrective measures within 90 days or acted in bad faith. The court must not make a determination as to whether or not the alleged ADA website access violation is abusive until after the 90 day period expires, or the alleged violation is corrected, whichever occurs first. The Attorney General can intervene or bring an action on behalf of affected residents or entities that have been targeted by abusive website access litigation and issue guidance to clarify when such litigation practices are to be deemed abusive.

HB 1780 Voss

Establishes the "Act Against Abusive Website Access Litigation"

This bill creates the "Act Against Abusive Website Access Litigation". If a lawsuit is filed claiming that a website is in violation of the Americans with Disabilities Act ("ADA"), the Attorney General or an adversely affected resident of this state may file a separate civil action against the party, attorney, or law firm claiming that an ADA violation has occurred. The civil action must ask for a determination as to whether the alleged website access violation is abusive litigation. If the court determines that the litigation is abusive, the court may award reasonable attorney's fees and costs, and punitive damages not to exceed three times the amount of attorney's fees awarded. To determine whether the ADA website access litigation is abusive, the court will consider the totality of the circumstances to determine if the primary purpose of the litigation is to obtain payment from the defendant due to the costs of defending the action in court. To make such a determination, the trier of fact may assess the following factors: (1) The number of substantially similar actions filed by the same plaintiff, lawyer, or law firm, and any history of frivolous lawsuits brought by the plaintiff, lawyer, or law firm within the previous 10 years; (2) The number of full-time employees that the defendant employs and the resources available to defend against the litigation; (3) The resources available to the defendant to correct the alleged website access violation; (4) Whether the jurisdiction or venue in which the lawsuit is brought is a substantial obstacle in the defendant's efforts to defend against the litigation; (5) Whether the plaintiff or the lawyer filing on behalf of the plaintiff is a resident of Missouri or is licensed to practice law in this state; (6) The nature of settlement discussions, the reasonableness of settlement offers, and refusals to settle at all; and(7) Whether the plaintiff or the lawyer filing on behalf of the plaintiff violated Missouri Supreme Court rules pertaining to the signing of all pleadings and motions. If the defendant who is alleged to have violated the ADA's rules on website

access in good faith attempts to correct the alleged violations within 30 days after receiving written notice or being served with a petition and the notice or petition provides sufficient detail to identify and correct the alleged violation, there will be a rebuttable presumption that a continuation of the litigation by the plaintiff is abusive. If the alleged ADA website access violation is not corrected by the defendant within 90 days after receiving written notice or being served with a petition, there must not be a rebuttable presumption that the litigation is abusive. The court will not make a determination as to whether or not the alleged ADA website access violation is abusive until after the 90 day period expires, or the alleged violation is corrected, whichever occurs first. If the Attorney General determines that the litigation alleging an ADA website access violation is not abusive, and such a determination is attached to the plaintiff's petition, there will be a rebuttable presumption that litigation is not abusive.

HB 2041 Terry

Modifies provisions relating to guardianships and conservatorships

This bill makes several changes to guardianships and conservatorships. It adds classifications of guardianship: General, Specialized, and Forensic. It adds “mental illness” and “cognitive disability” to the definition of habilitation. It adds language regarding being consistent with the guardianship classification and the words “welfare”, “life”, and “unnatural death to the definition of “least restrictive alternative”. It adds “medical”, “cognitive”, “intellectual”, and “developmental” to the definition of treatment. The bill states the court will appoint people as guardians listed in the order of priority and adds that they must be qualified under section 475.055 and be suitable to serve. It adds “any eligible person nominated by a previous guardian who was in good standing” to the order of priority. The financial resources of the prospective guardian will not be considered when determining who is an eligible person. It also requires that it be proven that a prospective guardian with whom the person who is incapacitated will reside lives in substandard housing which poses a danger or unsanitary conditions for the person who is incapacitated and that it is a result of willful negligence by the prospective guardian before the prospective guardian is disqualified. The Department of Health and Senior Services will conduct these investigations as well as investigations regarding substandard conditions of any current or prospective dwelling of a person who is incapacitated. The bill specifies that courts cannot deny a petition for guardianship because a person lives in low-income housing, receives supplemental security income or social security disability insurance, has particular wages, or is unemployed. The wishes of the person who is incapacitated will be taken in to account by courts. Public administrators must maintain records of their criminal history, record check, credit check, and disqualification list for court inspection as deemed necessary. At any point, a court can order a guardian or conservator to submit to a criminal background check, fingerprint check, sex offender registry check, or disqualification list check. The bill states what each guardian or conservator will be given in relation to these orders. A petition for guardianship must include the guardianship classification being requested. A guardian’s annual report to the court will also include a statement from and signed by the ward regarding the performance of the guardian and other specific information regarding the ward’s thoughts and desires. It adds additional items to the guardian’s report requirements. Specific information in the report and any mental status review will be sealed by courts. Procedures are established which must occur prior to a mental status evaluation order. It includes provisions for appointing a successor guardian or conservator and a temporary guardian or conservator. It adds responsibilities to the guardian’s duties. It states that even though someone may have a forensic guardianship he/she won’t be committed or incarcerated in an institution or denied participation in a program solely because of that guardianship classification. The bill creates a statutory pathway for wards to have equal access to courts and due process. It makes changes to the rights of wards. A guardian will not include the duties of a durable power of attorney agent if one is also appointed by the court. If a ward’s capacity is disputed, it is reviewable.

Establishes the "Act Against Abusive Website Access Litigation"

This act creates the "Act Against Abusive Website Access Litigation". The Attorney General, on behalf of a class of residents of this state, or any resident of this state who is subject to litigation that alleges any website access violation may file a civil action against the party, attorney, or law firm that initiated such litigation for a determination as to whether such litigation alleging a website access violation is abusive litigation. In determining whether such litigation is abusive, the trier of fact shall consider the totality of the circumstances to determine if the primary purpose of the litigation was to obtain a payment from the defendant due to the costs of defending the action in court. The act describes the factors to be considered in making this determination. If the defendant in a website access violation case attempts to correct the alleged violation within 30 days of being provided notice, there shall be a rebuttable presumption that the subsequent initiation or continuance of litigation constitutes abusive litigation. Such presumption shall not exist if the alleged violation is not corrected within 90 days under circumstances described in the act. If the Attorney General determines that the website access litigation is not abusive, then there shall be a rebuttable presumption that the litigation is not abusive. The court may award attorney's fees to the party defending against the abusive litigation. The court may also award punitive damages or sanctions not to exceed three times the amount of attorney's fees awarded by the court. If the U.S. Department of Justice issues standards concerning website accessibility under the federal Americans with Disabilities Act, the provisions of this act shall expire.

Establishes the "Act Against Abusive Website Access Litigation"

This act creates the "Act Against Abusive Website Access Litigation". The Attorney General, on behalf of a class of residents of this state or any resident of this state who is subject to litigation that alleges any website access violation, may file a civil action against the party, attorney, or law firm that initiated such litigation for a determination as to whether such litigation alleging a website access violation is abusive litigation. A civil action alleging a website access claim is considered abusive only if the court, based on the totality of the circumstances, finds the primary purpose of the litigation was to obtain a monetary settlement unrelated to improving accessibility or enforcing accessibility rights. The act describes the factors to be considered in making this determination. A defendant who receives notice of an alleged website accessibility violation and in good faith takes substantial steps to correct the violation within 90 days shall have a rebuttable presumption that any subsequent litigation is not abusive. The presumption may be overcome by a showing that the defendant failed to complete reasonable corrective measures within 90 days or acted in bad faith. The Attorney General may intervene or bring an action on behalf of Missouri residents that are targets of abusive website access litigation. The Attorney General may also issue guidance as to when litigation practices are deemed abusive, but such guidance shall not preclude legitimate accessibility enforcement actions. The court may award attorney's fees to the party defending against the abusive litigation. The court may also award punitive damages or sanctions not to exceed three times the amount of attorney's fees awarded by the court. If the U.S. Department of Justice issues standards concerning website accessibility under the federal Americans with Disabilities Act, the provisions of this act shall expire.

SB 1317 Carter
Modifies provisions regarding forensic guardianships

This act provides that a court may appoint the Division of Probation and Parole ("Division") as a forensic guardian to a person who is found by a court to be incapacitated and to:
(1) Have a substantial criminal history of serious offenses;
(2) Be under supervised or unsupervised probation and parole;
(3) Be under a court order requiring or prohibiting a specific act;
(4) Be required to register as a sex offender;
(5) Have a likelihood of serious harm to himself, herself, or others or is likely to commit an offense or violate any term or condition of probation, parole, or court order;
(6) Have a substance use disorder resulting in total or partial incapacity or a significant incapacitation from alcohol or drugs; or
(7) Have significant interaction with law enforcement officers.
The Division shall have the same rights and duties as a public administrator appointed to serve as a guardian and shall operate in accordance with the powers and duties of guardians as currently provided in law. Additionally, the Division shall not be required to submit background checks of employees or consents to act to the court before the appointment of the Division as a guardian under this act. The Division shall be notified of the proceedings and shall receive a copy of the petition and any accompanying documents when it is being nominated or considered to serve as a guardian. During such proceedings, the Division shall have an opportunity to attend and be heard. A person under a forensic guardianship shall not be committed or incarcerated nor denied participation in or benefits from government or privately operated institutions, programs, or housing solely on the basis of being under a forensic guardian.

SB 1015 Nurrenbern
Creates provisions for involuntary outpatient treatment

This act establishes procedures for authorizing or continuing an individual's involuntary outpatient treatment. A petition in court for such treatment may be filed by the director, administrator, or treating physician of an emergency receiving center where the individual is receiving services or by the Department of Health and Senior Services, the Department of Mental Health, or any local public health agency. A court may issue an order requiring the individual to participate in assisted outpatient treatment if the individual is at least 18 years of age, is suffering from a mental disorder, will not obtain treatment in the community voluntarily, and is unable to make an informed decision to see or comply with voluntary treatment. Additional grounds for ordering treatment shall consider the necessity of treatment to prevent a deterioration in the individual's mental disorder likely to result in harm to the individual or others or the individual's history of lack of compliance with treatment for the disorder, as described in the act. The act sets forth the procedures for the hearing process, including the option for a jury trial. If the court or jury finds, by clear and convincing evidence, that the individual meets the criteria for assisted outpatient treatment and that an appropriate mental health program has agreed to accept the individual, the court shall issue an order requiring the individual to participate in treatment for a period not to exceed two years, unless extended by the court as described in the act. The court shall assign a case manager from a certified community behavioral health clinic to each individual ordered to participate in assisted outpatient treatment. The case manager and individual shall report to the court at least once every ninety days. If a court determines that the individual is not complying with an order of assisted outpatient treatment, the court may order, without a hearing, that the individual be evaluated at a community mental health center, be hospitalized in a psychiatric hospital for a period of not more than ten days, and potentially be hospitalized for longer upon the recommendation of the community mental health center; provided such extended hospitalization does not exceed the duration of the order for assisted outpatient treatment or ninety days, whichever is less. If the individual objects to such hospitalization, the court shall schedule a hearing as described in the act. Finally, the Office of State Courts Administrator shall submit an annual report to the General Assembly regarding certain statistics of individuals receiving treatment under this act and the impact of such treatment on hospitalization and incarceration rates.

SB 1158 Lewis
Creates provisions relating to an extreme risk order of protection

This act creates the "Firearm Violence Prevention Act", which establishes an extreme risk protection order to prevent a person who is found to pose an extreme risk to him or herself or others from possessing, controlling, or owning a firearm. This act provides that a family or household member may file a petition with the court for a temporary extreme risk order of protection. If the court finds by a preponderance of the evidence that the respondent poses a significant risk of causing personal injury to self or others by possessing a firearm, the court shall issue the temporary extreme risk order of protection as provided in the act. The court shall next schedule a hearing within 7 days after the issuance of the temporary extreme risk order of protection to determine if a full extreme risk order of protection should be issued for a period of 182 days. If the court finds by clear and convincing evidence that the respondent poses a significant risk of causing personal injury to self or others by possessing a firearm, the court shall issue the extreme risk order of protection as provided in the act. The order may be renewed if the court finds the respondent continues to pose significant risk. Additionally, a law enforcement officer or agency may also file a petition for an extreme risk order of protection. This act also provides that the respondent may submit one written request for a hearing to terminate an extreme risk protection order. The hearing shall occur no sooner than 14 days and no later than 28 days after the petitioner is served with a hearing request. The court shall terminate the order if the respondent establishes by clear and convincing evidence that the respondent does not continue to pose a significant risk of personal injury to self or others. Upon the issuance of an extreme risk protection order, the court shall order the respondent to surrender all firearms as provided in the act. The law enforcement officer or agency taking possession of the firearms shall issue a receipt identifying all firearms and any permit that is surrendered. The court may issue a warrant to search and seize any firearm in possession of a person subject to a temporary or full extreme risk order of protection if probable cause exists the respondent failed to surrender all firearms. By December 1, 2026, the POST Commission shall establish policies for the storage of any firearms surrendered pursuant to this act. Once an extreme risk order of protection has expired, the law enforcement agency storing the firearm shall confirm the respondent is currently eligible to possess the firearm and return such firearm. This act provides that the court clerk shall forward a copy of an extreme risk protection order to the Highway Patrol. The order shall be entered into the National Instant Criminal Background Check System (NICS) and the Missouri Uniform Law Enforcement System (MULES). Finally, any person found in possession of a firearm in violation of an extreme risk order of protection shall be guilty of a class B misdemeanor.

SB 1298 Lewis

Modifies provisions relating to the human immunodeficiency virus

This act repeals provisions of law relating to the human immunodeficiency virus (HIV), including, but not limited to, provisions relating to:

· Payment by the Department of Health and Senior Services for the costs of HIV testing for certain victims of crime (changed under this act to testing for sexually transmitted infections or diseases and limited to two rounds of testing);

· Those authorized to conduct HIV testing and disclosure of information relating to HIV testing and individual test results;

· HIV testing of prisoners by the Department of Corrections, HIV testing of persons participating in certain drug treatment programs by the Department of Mental Health or individuals in the Department's custody, and conducting HIV testing without the individual's right to refuse testing;

· Insurance coverage of persons who test positive for HIV or HIV-related conditions;

· Nuisance laws relating to persons who build, maintain, use, own, or lease any building or other place used for lewdness, assignation, or illegal purpose involving sexual or other contact through which HIV transmission can occur;

· Notice given by the Department of Health and Senior Services to schools on the identity of any child reported to have HIV or parents or guardians confirmed to have HIV;

· Rule promulgation authority for mandatory premarital HIV testing;

· Definitions of psychologically impacted real property; and

· Enhanced penalties for the offense of prostitution for persons knowing in advance that they were infected with HIV.

Additionally, this act modifies a provision of law that requires certain persons to undergo HIV testing prior to incarceration without the right to refuse. Under this act, such persons shall instead be screened for sexually transmitted diseases prior to incarceration, with the costs for juveniles tested to be paid for by the county in which the offense occurred. This act modifies several provisions of law relating to infection control procedures by replacing HIV or HBV (hepatitis B virus) with "serious infectious or communicable diseases". Finally, this act modifies the practice of pharmacy to include the dispensing of HIV pre-exposure prophylaxis.

SB 1497 Mosley

Modifies provisions relating to extreme risk orders of protection

This act establishes an extreme risk order of protection, which allows a court to restrain or enjoin a respondent from possessing any firearm if a parent, teacher, or school administrator of the respondent or a law enforcement officer or agency proves by a preponderance of the evidence that an immediate and significant danger exists of the respondent causing personal injury to himself or herself or others. A court may immediately issue an ex parte order of protection for good cause shown and the court shall order the respondent to surrender all firearms as provided in the act. If the respondent does not comply, then a law enforcement officer serving the order shall conduct a lawful search and seizure of any firearms of the respondent. The court shall then hold a hearing within 15 days of the filing of the petition and, if the court issues a full extreme risk order of protection, the person subject to the order of protection shall surrender any firearms in his or her possession, control, or ownership as provided in the act. Additionally, this act provides that a respondent to an extreme risk order of protection may file a petition to modify or rescind an order. The petitioner may also renew the extreme risk order of protection for up to one year from the expiration of the preceding order. Finally, any violation of an ex parte or full extreme risk order of protection shall be a class A misdemeanor for the first violation and a class E felony for any subsequent violation.

HB 2914 Lewis
Creates, repeals, and modifies provisions relating to literacy of elementary school students

Only the parts related to people with disabilities are summarized.

This bill requires the Department of Elementary and Secondary Education (DESE) to give each school district and charter school $500 for each fourth grade student who exhibited a substantial reading deficiency in any of grades kindergarten to grade three, or who was identified as dyslexic, and who subsequently scores at the proficient level or higher in reading on the annual summative English language arts assessment administered to fourth grade students. The act establishes the "Missouri Universal Reading Screener. The screener will score each student in one of the following categories: "below basic", "basic", "grade-level", "proficient", or "advanced". Proficiency benchmarks associated with these categories shall be determined by DESE. School districts and charter schools shall assess all students in grades first through third on the Missouri Universal Reading Screener during three annual administration windows established by DESE. DESE shall provide the screener to school districts and charter schools at no cost. The screener may also be used to comply with dyslexia screening requirements established in current law. Student results on the screener shall not be used to make decisions concerning the accreditation of a public school or school district. The act repeals a provision requiring school districts and charter schools to assess newly enrolled students in grades first through fifth on a reading assessment selected from a state-approved list. A student who scores "basic" on the Missouri Universal Reading Screener shall be identified as having a reading deficiency. A student who scores "below basic" on the screener shall be identified as having a substantial reading deficiency. A school district or charter school shall notify the parent of a student with a substantial reading deficiency that if the child's substantial reading deficiency is not corrected by the end of third grade, the child shall not be promoted to fourth grade unless the child qualifies for a good cause exemption. Retention of a third-grade student with a substantial reading deficiency is mandatory unless the child qualifies for a good cause exemption or scores "basic" or higher on a retest opportunity through the Missouri Universal Reading Screener. A good cause exemption may be granted to students who have individualized education plans or 504 plans developed under federal law. A good cause exemption may also be

granted to a student who has already been retained at least once in kindergarten to third grade. To request a good cause exemption, a student's teacher shall submit documentation to the school principal recommending the student's promotion, including the type of exemption being requested and the child's existing reading improvement plan or individualized education plan, as appropriate. The school principal shall discuss the recommendation with the teacher and determine whether the student qualifies for a good cause exemption. If the school principal determines that the student qualifies for the good cause exemption, the school principal shall make such recommendation in writing to the superintendent, who shall accept or reject the school principal's recommendation in writing. The school district shall assist schools with notifying parents of students who are retained of the reasons for the retention, along with a description of the proposed interventions and supports that will be provided to the child to remedy the identified area or areas of reading deficiency in the following school year. Intensive reading instruction provided to students exhibiting a reading deficiency or substantial reading deficiency shall not include the three-cueing system, as defined in current law, to teach word reading. By October 1 annually, each school board shall report in writing to DESE certain information regarding reading instruction, such as the board's policies regarding student retention and promotion, the number and percentage of students identified as having reading deficiencies or substantial reading deficiencies, the number and percentage of all students retained in kindergarten to third grade due to substantial reading deficiencies, and the total number and percentage of third-grade students who were promoted with good cause exemptions, as provided in the act.

HB 2949 Doll
Establishes the "Sudden Cardiac Arrest Screening Act"

This bill requires, for the 2027-2028 school year, the Department of Elementary and Secondary Education in collaboration with the Department of Health and Senior Services and the Missouri State High School Activities Association to distribute materials to inform and educate student athletes, parents/guardians, and coaches about the diseases that can cause and the warning signs of sudden cardiac arrest. Beginning with the 2027-2028 school year student-athletes and parents/guardians will be required to sign a form acknowledging receipt of sudden cardiac arrest information. Coaches will be required to complete annual training on the topic beginning with the 2027-2028 school year. As part of a sports physical examination, a cardiovascular prescreening will be included beginning with the 2027-2028 school year.
Status: 1/14/26 Second Read (H)

HB 2978 Terry
Limits the use of technology for student learning practices in elementary schools

This bill requires school districts to establish an elementary school technology-use policy to limit the screen time of students. Cursive writing instruction is required beginning in second grade. There are exceptions to the use of technology with elementary students. Two of the exceptions include for special education needs as stated in an individualized education program or a 504 plan and for assistive or adaptive technology for student access. This will begin with the 2027-2028 school year.

Establishes the "Missouri Integrated Safe Driving Program" to provide standardized driver education instruction and training for pupils in grades 9-12

This act establishes the "Missouri Integrated Safe Driving Program" to provide standardized driver education instruction and training for pupils in grades 9-12. The program shall include instruction on the safe operation of motor vehicles, the rules of the road, and applicable motor vehicle laws, including Missouri's driver licensing system. The Department of Elementary and Secondary Education (DESE) shall receive and review sample instructional lessons from recognized statewide professional organizations and school districts and shall make approved sample lessons available to school districts and charter schools. Beginning with the 2027–28 school year, school districts and charter schools may implement a plan adopting the program and may utilize the sample lessons provided by DESE. The program shall promote knowledge, attitudes, habits, and skills necessary for safe driving; address distracted driving as a significant traffic safety concern; explain law enforcement procedures during traffic stops; and provide current data regarding risky driving behaviors. Districts may require pupil participation in program-related lessons within existing courses, as provided in the act. The program shall not require pupils to physically operate a motor vehicle; nor shall the program be construed to prohibit school districts or charter schools from offering other elective driver education courses.

Establishes the "Missouri Disabled Veteran Homestead Tax Credit Act"

This act authorizes a county to grant a property tax credit on real property used as a homestead by a veteran with a 100% permanent disability rating. The tax credit shall apply to all property tax levies imposed on the taxpayer's residence, excluding the state levy imposed for the Blind Pension Fund. To qualify for a property tax credit, the taxpayer's qualified residence shall not have a market value exceeding $500,000 exclusive of any portion of the property used for commercial purposes. A property tax credit authorized by this act shall transfer to the taxpayer's surviving spouse as long as the spouse holds the legal or beneficial title to the residence, permanently resides at the

residence, and does not remarry. To grant property tax credits authorized by the act, a county shall opt in to the provisions of the act by an affirmative majority vote of the governing body of the county. The governing body may at any time rescind the property tax credit program by an affirmative vote. The total amount of property tax credits authorized pursuant to this act shall be considered tax revenue actually received by the county and political subdivisions.

SB 1533 Justin Brown
Establishes the Interstate Dental and Dental Hygienist Licensure Compact

his act establishes the Interstate Dental and Dental Hygienist Licensure Compact ("Compact"), which facilitates the interstate practice of dentistry and dental hygiene and provides for dentists and dental hygienists licensed in a participating state to have expedited licensure portability in other participating states. The Compact creates a

joint government agency ("Commission") and provides for its powers and duties, including overseeing the administration of the Compact, issuing advisory opinions and training on the Compact, and enforce compliance with the Compact. Additionally, each state's dental board shall have two voting members on the Commission, with one member required to be a member of the Missouri Dental Board. States shall submit all actions and documents determined by the Commission to the Clearinghouse, which is described in the act as the clearinghouse and databank administered by the American Association of Dental Boards that houses adverse actions and denials of licensure from the state dental boards. Insurance companies and entities verifying documents for the purposes of licenses to dentists or dental hygienists may seek information from the Clearinghouse for public record documents. The Compact sets forth the requirements for a dentist or dental hygienist to obtain and exercise the ability to practice in other participating states with the home state's dental board determining the eligibility of an application for a compact license privilege. The Compact further provides that a dentist or dental hygienist with compact privilege shall be subject to and comply with the laws and regulations of the participating state in which they seek to practice and shall be subject to that state's dental board. Appeals of a denial of a compact privilege application shall be filed with the home state within thirty days of the denial. Additionally, a licensee shall notify the Commission within ten days of any adverse action taken against his or her license in a state that is not a member of the Compact. Home states may take adverse actions against a holder of a compact license privilege regardless of where the actions occurred and any participating state where the compact licensee holds a compact license privilege may investigate an allegation of a violation of the laws and rules of the practice of dentistry or dental hygiene in any other state where the licensee holds a compact license privilege. Participating states may also participate together in joint investigations of compact licensees. Dental boards issuing a compact license privilege may also impose a fee for such privilege, except no fee shall be required for any active-duty military member or their spouse for up to one year after separation from the service. Furthermore, the Compact shall become active and binding upon the fifth state's enactment of the Compact. Any participating state may withdraw from the Compact by repealing the Compact, but the Compact shall remain in effect until six months after the date of withdrawal.

HB 1755 Caton
Establishes the "Act Against Abusive Website Access Litigation"

This bill creates the "Act Against Abusive Website Access Litigation". If a lawsuit is filed claiming that a website is in violation of the Americans with Disabilities Act ("ADA"), the Attorney General or an adversely affected resident of this state may file a civil action against the party, attorney, or law firm claiming that an ADA violation has occurred. The civil action must ask for a determination as to whether the alleged website access violation is abusive litigation. If the court determines that the litigation is abusive, the court may award reasonable attorney's fees and costs and punitive damages not to exceed three times the amount of attorney's fees awarded. To determine whether the ADA website access litigation is abusive, the court will consider the totality of the circumstances to determine if the primary purpose of the litigation is to obtain payment from the defendant due to the costs of defending the action in court. To make such a determination, the trier of fact may assess the following factors: (1) The number of substantially similar actions filed by the same plaintiff, lawyer, or law firm, and any history of frivolous lawsuits brought by the plaintiff, lawyer, or law firm within the previous 10 years; (2) The number of full-time employees that the defendant employs and the resources available to defend against the litigation; (3) The resources available to the defendant to correct the alleged website access violation; (4) Whether the jurisdiction or venue in which the lawsuit is brought is a substantial obstacle in the defendant's efforts to defend against the litigation; (5) Whether the plaintiff or the lawyer filing on behalf of the plaintiff is a resident of Missouri or is licensed to practice law in this state; (6) The nature of settlement discussions, the reasonableness of settlement offers, and refusals to settle at all; and(7) Whether the plaintiff or the lawyer filing on behalf of the plaintiff violated Missouri Supreme Court rules pertaining to the signing all pleadings and motions. If the defendant who is alleged to have violated the ADA's rules on website access in good faith attempts to correct the alleged violations within 30 days after receiving written notice or being served with a petition, and the notice or petition provides sufficient detail to identify and correct the alleged violation, there will be a rebuttable presumption that a continuation of the litigation by the plaintiff is abusive. If the alleged ADA website access violation is not corrected by the defendant within 90 days after receiving written notice or being served with a petition, there must not be a rebuttable presumption that the litigation is abusive. The court will not make a determination as to whether or not the alleged ADA website access violation is abusive until after the 90 day period expires, or the alleged violation is corrected, whichever occurs first. If the Attorney General determines that the litigation alleging an ADA website access violation is not abusive, and such a determination is attached to the plaintiff's petition, there will be a rebuttable presumption that litigation is not abusive.

SB 1536 Black

Establishes the Designated Health Care Decision-Maker Act, which authorizes certain persons to make health care decisions for certain incapacitated persons

This act establishes the Designated Health Care Decision-Maker Act. Specifically, a health care provider or health care facility may rely on good faith and reasonable medical judgment for health care decisions made by designated health care decision-makers if two physicians determine that an incapacitated patient does not have a guardian with medical decision-making authority, a durable power of attorney for health care, is not a child under juvenile court jurisdiction, nor has any other known person who has the legal authority to make health care decisions. The physician or health care provider shall make reasonable efforts, as described in the act, to inform potential designated health care decision-makers of a patient's incapacitation.
Designated health care decision-makers may be selected from the following persons listed by priority:
(1) The spouse of the patient;
(2) An adult child of the patient;
(3) A parent of the patient;
(4) An adult sibling of the patient;
(5) A grandparent or adult grandchild;
(6) The niece or nephew or the next nearest relative;
(7) A religious person who is a member of the patient's community;
(8) Any nonrelative with a close personal relationship who is familiar with the patient's values; or
(9) A person unanimously agreed upon by those in the priority list.

Priority shall not be given to those listed if abuse or neglect is reported, the person with priority cannot be reached by the physician, or if the probate court finds that the person with priority is making decisions contrary to the patient's instructions. Furthermore, this act does not prevent any person interested in the patient's welfare, a health care provider, or a health care facility from petitioning the probate court for the appointment of a guardian. A designated health care decision-maker shall make reasonable efforts to obtain information regarding the patient's health preferences and make decisions in the patient's best interests. Additionally, a designated health care decision-maker may only authorize the withdrawal or withholding of nutrition or hydration supplied through either natural or artificial means in certain situations as specified in the act. Once a health care decision-maker or physician believes that the patient is no longer incapacitated then the patient shall be reexamined. If the patient's physician determines that the patient is no longer incapacitated, then the physician shall certify the decision and the basis therefor in the patient's medical record and shall notify the patient, the designated health care decision-maker, and the person who initiated the redetermination of capacity. Rights of the designated health care decision-maker shall cease upon the physician's certification that the patient is no longer incapacitated. This act further provides that no health care provider or health care facility that makes reasonable efforts to locate and communicate with potential designated health care decision-makers shall be liable for the effort to identify and communicate with a potential designated health care decision-maker. Additionally, a health care provider or health care facility may decline to comply with the decision of a health care decision-maker if the decision is contrary to the religious beliefs or moral convictions of the provider or facility. If a health care provider declines to comply with a health care decision of the designated

health care decision-maker, no health care provider or health care facility shall impede the transfer of the patient to another provider or facility willing to comply with the health care decision. Nothing in this act shall be construed as condoning, authorizing, or approving euthanasia or mercy killing, or as permitting any affirmative or deliberate act to end a person's life.

Creates provisions relating to services for persons with disabilities

This bill requires the Department of Mental Health Division of Developmental Disabilities and the Department of Social Services MO HealthNet Division to make several changes. It requires the General Assembly to be informed of the interoperability of the systems used to administer MO HealthNet benefits and waiver services for those with intellectual and developmental disabilities. If it is not interoperable, an estimate of the funding needed to make this happen is required. The MO HealthNet Division will make sure its durable medical equipment meets the criteria outlined. It also requires the creation of a dashboard to track statuses of where someone with an intellectual or developmental disability is in the processes of the Division of Developmental Disabilities. It creates reporting and disciplinary procedures for incorrectly informing someone that he/she is on a waitlist or that no funding is available for developmental disability services. It requires certain documents created by the Division of Developmental Disabilities to use plain language. It also includes other General Assembly reporting requirements.

Proposes a constitutional amendment relating to taxation

This joint resolution proposes amending the Missouri Constitution to state no state individual income tax will be enacted or imposed if the top individual tax rate is below 1.4%. It allows for legislation to expand a transaction-based tax on goods and services. It requires political subdivisions to reduce revenue by doing items specified in the resolution if a sales and use type tax is imposed. There will be no reduction to public school funding. Each sales and use tax rate can be adjusted to substantially produce the same amount of revenue.

SJR 115 Trent
Modifies provisions relating to taxation

This amendment provides that, if all revenue triggers established by the General Assembly for the elimination of the individual income tax are met such that the top rate of tax is reduced below 1.4%, then for any tax year beginning on or after the later of January 1, 2031, or January 1 of the year in which the top rate of tax is reduced below 1.4%, no individual income tax shall be imposed by the state, provided that this provision shall not apply to any earnings tax imposed by a political subdivision or to the income tax imposed on the income of trusts, estates, or fiduciaries thereof, corporations, partnerships, limited liability companies, or any other entity other than real persons. This amendment authorizes the General Assembly to expand the sales and use tax base to include the ability to tax any goods and services. Beginning January 1, 2029, any county, city, town, or village imposing a sales or use tax at a rate greater than 1%, and any other political subdivision imposing a sales and use tax at a rate greater than 0.5% shall annually adjust one or more of several tax levies imposed by such political subdivision for the purpose of offsetting any additional revenue received from the expansion of the sales and use tax base. The levies that shall be adjusted are the sales and use tax rate, personal property tax levy, residential real property tax levy, or earnings tax rate. Notwithstanding such provision, no adjustment made pursuant to this provision shall result in a reduction in funding to the public schools within or serving such political subdivision. Beginning January 1, 2029, each constitutionally-imposed sales and use tax rate shall be adjusted in a manner provided by law in order to produce substantially the same amount of revenue as the median annual revenue that such tax produced for the three fiscal years ending prior to the preceding calendar year, as adjusted for inflation. The State Auditor shall determine any such adjustments. Any tax or revenue increase resulting from any general law enacted by the General Assembly for the purpose of eliminating the individual income tax, provided that such general law is enacted within three years of the effective date of this amendment, shall be exempt from Hancock limitations and from constitutional provisions relating to motor fuel tax.

SB 1571 Lewis
Modifies provisions relating to insurance coverage of orthotic, prosthetic, and assistive devices

Under this act, the MO Healthnet program and health benefit plans shall include coverage for orthotic, prosthetic, and assistive devices, supplies, and services furnished under an order by a prescribing physician or licensed health care provider, including those customized to the enrollee's daily living needs and essential job-related activities, including wheelchairs. This coverage shall include repair and replacement, which may be subject to prior authorization, and any denial of coverage shall contain specified language regarding enrollee rights, as described in the act. MO Healthnet managed care plans and health benefit plans shall ensure access to medically necessary clinical care and to prosthetic, custom orthotic, and assistive devices and technology from at least two providers in the plan's provider network in this state or refer the participant to an out-of-network provider and fully reimburse the out-of-network provider at a mutually agreed-upon rate less participant cost sharing determined on an in-network basis. A health benefit plan may limit the benefits for, or alter the financial requirements for, out-of-network coverage of orthotic, prosthetic, and assistive devices, but the restrictions and requirements shall not be more restrictive than the out-of-network financial requirements that apply to other out-of-network coverage for basic health care services provided under the health benefit plan. Coverage shall not be subject to any limitations for preexisting conditions. Before October 1, 2027, each health carrier that issues a health benefit plan providing coverage required under this act shall report to the Director of the Department of Commerce and Insurance certain claims data regarding coverage under this act. The Director shall aggregate the data and submit a report to the General Assembly before December 1, 2027.The provisions of this act shall apply to a Medicare supplement policy.

SB 1581 Bean
Establishes the "Veterans Mental Health Innovation Act" relating to ibogaine treatment

This act establishes the "Veterans Mental Health Innovation Act". Under this act, the Department of Health and Senior Services shall, subject to appropriation, award grants to conduct certified clinical drug development trials overseen by the U.S. Food and Drug Administration (FDA) on the use of ibogaine for the treatment of opioid use disorder, co-occurring substance use disorder, or any other neurological or mental health condition for which ibogaine demonstrates efficacy. Grantees shall meet the eligibility requirements set forth in the act, including having signed an agreement with a consortium established by another state that has submitted specified applications and requests with the FDA. This act creates the "Ibogaine Study Fund" in the state treasury for the disbursement of grants under this act. Selected grant applicants shall submit quarterly reports to the Department and the Department shall submit an annual report to the General Assembly on the progress of the trials. This act also creates the "Ibogaine Intellectual Property Fund" for all revenue attributable to all intellectual property rights and other commercial rights that may arise from drug development clinical trials conducted by a multistate consortium under this act during the period for which the trials are funded and any following period of commercialization. The moneys in the fund shall be used solely for programs that assist veterans or other at-risk populations in this state. If ibogaine is approved by the FDA to treat a medical condition, only a licensed physician shall prescribe it for a patient and a licensed physician shall supervise its administration at a hospital or other licensed health care facility. The Department shall begin accepting grant applications before November 1, 2026, but may delay implementation of some or all of the provisions of this act if the Department determines that a waiver or authorization from a federal agency is first necessary.

Proposes a constitutional amendment relating to taxation

This joint resolution proposes amending the Missouri Constitution to state no state individual income tax will be enacted or imposed if the top individual tax rate is below 1.4%. It allows for legislation to expand a transaction-based tax on goods and services. It requires political subdivisions to reduce revenue by doing items specified in the resolution if a sales and use type tax is imposed. There will be no reduction to public school funding. Each sales and use tax rate can be adjusted to substantially produce the same amount of revenue.

SB 1583 Nurrenbern
Modifies provisions relating to a property tax for senior services

Current law authorizes counties to impose a property tax of $0.05 per $100 assessed valuation for providing services to persons 60 years of age or older. This act increases the allowable levy to $0.10 per $100 assessed valuation. The act also requires the board of directors responsible for the administrative control and management of the Senior Citizens' Services Fund to be accredited by a statewide nonprofit organization advancing the well-being of older adults across the state, as described in the act.

SJR 115 Trent
Modifies provisions relating to taxation

This amendment provides that, if all revenue triggers established by the General Assembly for the elimination of the individual income tax are met such that the top rate of tax is reduced below 1.4%, then for any tax year beginning on or after the later of January 1, 2031, or January 1 of the year in which the top rate of tax is reduced below 1.4%, no individual income tax shall be imposed by the state, provided that this provision shall not apply to any earnings tax imposed by a political subdivision or to the income tax imposed on the income of trusts, estates, or fiduciaries thereof, corporations, partnerships, limited liability companies, or any other entity other than real persons. This amendment authorizes the General Assembly to expand the sales and use tax base to include the ability to tax any goods and services. Beginning January 1, 2029, any county, city, town, or village imposing a sales or use tax at a rate greater than 1%, and any other political subdivision imposing a sales and use tax at a rate greater than 0.5% shall annually adjust one or more of several tax levies imposed by such political subdivision for the purpose of offsetting any additional revenue received from the expansion of the sales and use tax base. The levies that shall be adjusted are the sales and use tax rate, personal property tax levy, residential real property tax levy, or earnings tax rate. Notwithstanding such provision, no adjustment made pursuant to this provision shall result in a reduction in funding to the public schools within or serving such political subdivision. Beginning January 1, 2029, each constitutionally-imposed sales and use tax rate shall be adjusted in a manner provided by law in order to produce substantially the same amount of revenue as the median annual revenue that such tax produced for the three fiscal years ending prior to the preceding calendar year, as adjusted for inflation. The State Auditor shall determine any such adjustments. Any tax or revenue increase resulting from any general law enacted by the General Assembly for the purpose of eliminating the individual income tax, provided that such general law is enacted within three years of the effective date of this amendment, shall be exempt from Hancock limitations and from constitutional provisions relating to motor fuel tax.

Under this act, the MO Healthnet program and health benefit plans shall include coverage for orthotic, prosthetic, and assistive devices, supplies, and services furnished under an order by a prescribing physician or licensed health care provider, including those customized to the enrollee's daily living needs and essential job-related activities, including wheelchairs. This coverage shall include repair and replacement, which may be subject to prior authorization, and any denial of coverage shall contain specified language regarding enrollee rights, as described in the act. MO Healthnet managed care plans and health benefit plans shall ensure access to medically necessary clinical care and to prosthetic, custom orthotic, and assistive devices and technology from at least two providers in the plan's provider network in this state or refer the participant to an out-of-network provider and fully reimburse the out-of-network provider at a mutually agreed-upon rate less participant cost sharing determined on an in-network basis. A health benefit plan may limit the benefits for, or alter the financial requirements for, out-of-network coverage of orthotic, prosthetic, and assistive devices, but the restrictions and requirements shall not be more restrictive than the out-of-network financial requirements that apply to other out-of-network coverage for basic health care services provided under the health benefit plan. Coverage shall not be subject to any limitations for preexisting conditions. Before October 1, 2027, each health carrier that issues a health benefit plan providing coverage required under this act shall report to the Director of the Department of Commerce and Insurance certain claims data regarding coverage under this act. The Director shall aggregate the data and submit a report to the General Assembly before December 1, 2027.The provisions of this act shall apply to a Medicare supplement policy.

SB 1581 Bean
Establishes the "Veterans Mental Health Innovation Act" relating to ibogaine treatment

This act establishes the "Veterans Mental Health Innovation Act". Under this act, the Department of Health and Senior Services shall, subject to appropriation, award grants to conduct certified clinical drug development trials overseen by the U.S. Food and Drug Administration (FDA) on the use of ibogaine for the treatment of opioid use disorder, co-occurring substance use disorder, or any other neurological or mental health condition for which ibogaine demonstrates efficacy. Grantees shall meet the eligibility requirements set forth in the act, including having signed an agreement with a consortium established by another state that has submitted specified applications and requests with the FDA. This act creates the "Ibogaine Study Fund" in the state treasury for the disbursement of grants under this act. Selected grant applicants shall submit quarterly reports to the Department and the Department shall submit an annual report to the General Assembly on the progress of the trials. This act also creates the "Ibogaine Intellectual Property Fund" for all revenue attributable to all intellectual property rights and other commercial rights that may arise from drug development clinical trials conducted by a multistate consortium under this act during the period for which the trials are funded and any following period of commercialization. The moneys in the fund shall be used solely for programs that assist veterans or other at-risk populations in this state. If ibogaine is approved by the FDA to treat a medical condition, only a licensed physician shall prescribe it for a patient and a licensed physician shall supervise its administration at a hospital or other licensed health care facility. The Department shall begin accepting grant applications before November 1, 2026, but may delay implementation of some or all of the provisions of this act if the Department determines that a waiver or authorization from a federal agency is first necessary.

Establishes a University of Missouri governance board for reporting on research related to rare pediatric diseases

Under this act, the University of Missouri shall establish a governance board that reports to the General Assembly on research projects related to rare pediatric diseases. The act defines a "rare pediatric disease" as a life-threatening or chronically debilitating condition affecting fewer than 200,000 individuals under the age of 18

in the United States. The governance board shall include representatives from University of Missouri health care and research facilities, a patient or family advocate, a nonprofit or industry partner, and appointees from the General Assembly, as specified in the act. The governance board shall submit an annual public report to the General Assembly by December 31 of each year from 2026 to 2029. The report shall include information on research projects initiated and completed, key outcomes achieved, funds expended and leveraged, and any legislative recommendations. The provisions of this act shall expire on June 30, 2030.

EMPLOYMENT

HB 2674 Johnson Issue 1

Creates provisions relating to mental health leave for employees
Status: 1/8/26 Second Read (H)

SB 1614 McCreery
Creates the Missouri Earned Family and Medical Leave Act

This act creates the Missouri Earned Family and Medical Leave Act.
GENERALLY
Under this act, all employees who are not independent contractors are eligible to receive up to six weeks each year of wage replacement benefits for any of the following reasons:
• To bond with a minor child within the first year of birth or placement in connection with foster care or adoption;
• To care for a family member with a serious health condition;
• To tend to one's own serious health condition; or
• To assume any familial responsibility because a spouse, child, or parent of an employee is on, or has been notified of an impending call to, active duty in the armed forces.
The Department of Labor and Industrial Relations is responsible for administering the program.
An employee is eligible for benefits equal to 100% of his or her average weekly pay for each full week taken for family or medical leave. However, an employee's average weekly wage may not be higher than the average state weekly wage. An employee may take partial weeks of leave but will only receive benefits equal to the fraction of the number of days of leave taken divided by the number of the days that the employee would have otherwise worked. An employee may additionally only take leave in full day increments.
APPLYING FOR BENEFITS
An employee has 41 days following the first day on which he or she begins to take family or medical leave to file a claim for benefits with the Department. Furthermore, an employee may not receive benefits until they have contributed to the Missouri Earned Family and Medical Leave Fund for at least 52 weeks. An employee may not receive benefits on any day for which they are eligible to receive unemployment or workers' compensation benefits. Leave taken under this act must be taken concurrently with leave taken under the federal Family Medical Leave Act.
Each employee applying for benefits shall show, on a certificate provided by the Department, that he or she is entitled to family or medical leave. An employee seeking to take leave under this act shall provide at least 30 days notice to their employer if the reason for leave is foreseeable. If it is not practicable, notice shall be given as soon as practicable.
APPEALING DETERMINATION OF ELIGIBILITY
Employees are entitled to appeal a determination of eligibility by the Department to the Administrative Hearing Commission. A notice of appeal shall be sent to the Commission within 30 days of the receipt of the determination by the employee. A decision by the Commission may be appealed to a court of competent jurisdiction. An employee is not entitled to appeal a determination of the amount of benefits received but may request a redetermination by the Department within one year of the initial determination.
UNLAWFUL DISCRIMINATORY ACTIONS
It is unlawful for an employer to discriminate against an employee because he or she filed a claim for, indicated an intent to file a claim for, or has received Missouri earned family and medical leave benefits. Courts hearing such complaints may grant injunctive, equitable, or compensatory relief to employees. Complaints may be filed

by either the employee or the Department. In the event that the Department files a complaint, the employee is thereafter barred from bringing his or her own action. In any event, a discrimination claim shall be brought within three years.

OUTREACH AND REPORTS

The Department is required to develop and implement an outreach program to make employees aware of their rights, duties, and responsibilities under this act. The State Auditor is required to complete an audit of the program by January 1, 2033.

MISSOURI EARNED FAMILY AND MEDICAL LEAVE FUND

The Missouri Earned Family and Medical Leave Fund is created. An employee is required to contribute .025% of his or her average weekly pay to the fund, provided that the total wages used to compute the contribution rate shall not exceed the contribution and benefit base used to calculate Social Security taxes. If, at the discretion of the Director of the Department of Labor and Industrial Relations, there is not a sufficient amount of funds in the fund to satisfy all claims, the director is permitted to reduce the benefit amount each employee will receive. Contributions to the program may begin January 1, 2028, but no employee may receive benefits until January 1, 2030. All employee contributions are pre-tax and not considered part of the adjusted gross income.

REFERENDUM CLAUSE

The act contains a referendum clause to be presented to the voters at the 2026 general election.

LEGISLATIVE UPDATE

Issue 5, February 6, 2026

Welcome to Issue 5 of the Legislative Update.

- The weekly Legislative Update provides information on disability related bills. For more details on a specific bill, please click on the bill number.
- If there has been action on a bill in the current week, the status is listed in red.
- To learn more about the legislative process consider attending the Legislative Education Project training or watching our online modules and videos.
- Please contact our office (Laura.Mueth@oa.mo.gov) if you need a different format.
- Past issues are online at Legislative Updates.
- Access to individual bill information is available on the Missouri Senate's website at Bill Search
- A glossary of legislative terms can be found at the Missouri House of Representatives Legislative Terms
- Most of the summaries are prepared by the Research Staff of the Missouri House of Representatives and Missouri Senate and are used by permission.

Note: When "incapacitated," "handicapped," etc. appear in a bill description, it reflects the terminology of the legislation, not the Governor's Council on Disability.

Establishes the "Accessible Prescription Labels Act"

This bill establishes the Accessible Prescription Labels Act. It requires pharmacies to notify customers upon dispensing a prescription drug that an accessible prescription label is available upon request free of charge. If a customer informs a pharmacy that the individual is blind, visually impaired or has a print disability the pharmacy will affix to the prescription bottle a label which is appropriate to the customer's disability and preferences, lasts for the length of the prescription, as well as follows the best practices of the Architectural and Transportation Barriers Compliance Board. The label will include the same information provided to any individual who does not have these disabilities and all information required to comply with state and federal laws. The label will also be provided in a timely manner so that wait times are comparable between customers with and without these disabilities. The pharmacy should also ensure labels are prescription reader compatible if one is provided by the pharmacy.

HB 3175 Brown
Establishes a process in which persons registering a motor vehicle may apply for a designation indicating a health condition or disability that limits or impairs the ability to effectively communicate with law enforcement

This bill allows a Missouri resident to apply for a designation associated with his/her license plate number alerting law enforcement that the applicant, the applicant's spouse, the applicant's parent, or the applicant's child has a health condition or disability that limits the ability to effectively communicate with law enforcement. This would be applied for at the time of vehicle registration. It would begin January 1, 2027. The application form would be created by the Department of Revenue. The form would be completed by a physician or psychologist and would certify the impairment exists and is expected to last at least five years. The Department of Public Safety would enter the designation in the Missouri Uniform Law Enforcement System. The designation can be renewed every five years as applicable and removed at the request of the applicant. The Department of Public Safety will provide guidance and educational materials to all law enforcement agencies.

LEGISLATIVE UPDATE

Issue 6, February 13, 2026

Welcome to Issue 6 of the Legislative Update.

- The weekly Legislative Update provides information on disability related bills. For more details on a specific bill, please click on the bill number.
- If there has been action on a bill in the current week, the status is listed in red.
- To learn more about the legislative process consider attending the Legislative Education Project training or watching our online modules and videos.
- Please contact our office (Laura.Mueth@oa.mo.gov) if you need a different format.
- Past issues are online at Legislative Updates.
- Access to individual bill information is available on the Missouri Senate's website at Bill Search
- A glossary of legislative terms can be found at the Missouri House of Representatives Legislative Terms
- Most of the summaries are prepared by the Research Staff of the Missouri House of Representatives and Missouri Senate and are used by permission.

Note: When "incapacitated," "handicapped," etc. appear in a bill description, it reflects the terminology of the legislation, not the Governor's Council on Disability.

Only those parts related to people with disabilities are summarized.

This bill prohibits school districts from retaining attorneys or law firms who employs or contracts with school district members or employees for providing counsel or litigating any administrative or legal proceeding regarding a student's individualized education program. It places the burden of proof and burden of production on school districts when a due process hearing of a student with a disability is involved. A student is required to remain in the present educational placement, eligibility status, and special education services while a proceeding is pending unless a different agreement is reached. The bill specifies when this can be invoked. The bill adds to the definition of special education record.

HB 3255 Terry

Establishes the "Missouri Universal Health Assurance Program" to provide a publicly financed, statewide insurance program for all residents of the state

This bill establishes the Missouri Universal Health Assurance Program. It is a publicly funded statewide program to provide comprehensive necessary health, mental health, and dental services including preventive screenings for all residents. An advisory council will be established in each of the six regions of the state created in the bill. One member of each advisory council will be a person with a physical disability. One of the responsibilities of each advisory council is to assist the program's board of governors with developing a transportation plan to ensure those who are elderly, those who have disabilities, and those who are indigent have access to nonemergency healthcare services. Specifics of the program are included in the bill.

LEGISLATIVE UPDATE

Issue 6, February 13, 2026

Welcome to Issue 6 of the Legislative Update.

- The weekly Legislative Update provides information on disability related bills. For more details on a specific bill, please click on the bill number.
- If there has been action on a bill in the current week, the status is listed in red.
- To learn more about the legislative process consider attending the Legislative Education Project training or watching our online modules and videos.
- Please contact our office (Laura.Mueth@oa.mo.gov) if you need a different format.
- Past issues are online at Legislative Updates.
- Access to individual bill information is available on the Missouri Senate's website at Bill Search
- A glossary of legislative terms can be found at the Missouri House of Representatives Legislative Terms
- Most of the summaries are prepared by the Research Staff of the Missouri House of Representatives and Missouri Senate and are used by permission.

Note: When "incapacitated," "handicapped," etc. appear in a bill description, it reflects the terminology of the legislation, not the Governor's Council on Disability.

Modifies and establishes provisions relating to elementary and secondary education

Only those parts related to people with disabilities are summarized.

This bill prohibits school districts from retaining attorneys or law firms who employs or contracts with school district members or employees for providing counsel or litigating any administrative or legal proceeding regarding a student's individualized education program. It places the burden of proof and burden of production on school districts when a due process hearing of a student with a disability is involved. A student is required to remain in the present educational placement, eligibility status, and special education services while a proceeding is pending unless a different agreement is reached. The bill specifies when this can be invoked. The bill adds to the definition of special education record.

Modifies provisions relating to property tax

Only the parts related to people with disabilities are summarized.

This bill states that rates of tax levy for each subclass of real property will be determined individually and the rates for each subclass of personal property will be determined in the aggregate. It requires that this be determined and new rates set by each county and the City of St. Louis beginning January 1, 2027. There are partial payment procedures established and the ability for pre-payment of taxes owed. This must be established by order or ordinance. Political subdivisions will be reimbursed for revenue decreases, subject to appropriation.

HB 3255 Terry

Establishes the "Missouri Universal Health Assurance Program" to provide a publicly financed, statewide insurance program for all residents of the state

This bill establishes the Missouri Universal Health Assurance Program. It is a publicly funded statewide program to provide comprehensive necessary health, mental health, and dental services including preventive screenings for all residents. An advisory council will be established in each of the six regions of the state created in the bill. One member of each advisory council will be a person with a physical disability. One of the responsibilities of each advisory council is to assist the program's board of governors with developing a transportation plan to ensure those who are elderly, those who have disabilities, and those who are indigent have access to nonemergency healthcare services. Specifics of the program are included in the bill.

This act establishes "Mason's Law". At the time of motor vehicle registration, a resident of this state with a health condition or disability that limits or impairs the ability to effectively communicate with law enforcement may apply to the Department of Revenue for a designation that shall be associated with the person's motor vehicle license plate number and be available to law enforcement. Upon approval of the application, the Department shall notify the Missouri State Highway Patrol and the Highway Patrol shall prepare an entry in the Missouri Uniform Law Enforcement System (MULES). Such entry shall remain active for five years, unless the applicant requests such designation be removed from the system. Upon expiration of the five year period, a renewal form may be filed with the Department to renew the designation.

HB 3305 Matthiesen
Modifies provisions governing mental health efforts in public schools

This bill changes the suicide prevention training requirements for public schools beginning with the 2027-2028 school year. It requires that training and guidance on using the Columbia Protocol be included as well as training on the virtual tool described later in the bill designed to assist teachers in helping students use the tool to obtain mental health information, support, and help. It also requires that the school district's policy on youth suicide awareness and prevention training be updated to reflect these additions. The model policy previously developed will also be updated. It enacts Brennan's Law which requires that beginning with the 2027-2028 school year students receive mental health awareness training sometime during fifth through eighth grades. The instruction will be age-appropriate and students with disabilities will participate to the extent possible. It will be provided as part of the health and physical education curriculum based on a Department of Elementary and Secondary Education established program. The bill requires the Department of Mental Health's children's office to develop the virtual tool mentioned earlier in the bill before July 1, 2027.

Modifies provisions relating to MO HealthNet third party liability

Under this act, any health benefit plan, third-party administrator, administrative service organization, or pharmacy benefits manager paying all properly submitted medical assistance subrogation claims or MO HealthNet subrogation claims shall respond to any inquiry by the state regarding a claim for payment for any health care item or service not later than 60 days after receiving the inquiry. Additionally, such entity shall not deny a claim submitted by the state for failure to provide prior authorization for the item or service, except that this provision shall not apply to certain programs or plans, including the original Medicare fee-for-service program, a Medicare Advantage plan, a reasonable cost reimbursement plan, a health care prepayment plan, or a prescription drug plan. A health benefit plan, third-party administrator, administrative service organization, or pharmacy benefits manager shall accept authorization provided by the state that an item or service is covered under the state plan or a waiver for the individual as if the authorization were the prior authorization made by the third party, except that this provision shall not apply to certain programs or plans, including the original Medicare fee-for-service program, a Medicare Advantage plan, a reasonable cost reimbursement plan, a health care prepayment plan, or a prescription drug plan.

SB 1682 McCreery
Modifies provisions relating to alternative therapies and treatments, including psilocybin

Under this act, any person who acquires, uses, produces, possesses, transfers, or administers psilocybin for the person's own therapeutic use shall not be subject to state or local criminal or civil penalties if the person is a veteran or first responder and is 21 years of age or older and suffers from a condition listed in the act. The person shall be enrolled in a study regarding the use of psilocybin to treat such conditions and shall provide the Department of Mental Health with specified information. A facilitator shall be present during the administration of the psilocybin and the use of psilocybin shall be limited to no more than 150 milligrams of psilocybin analyte during any 12-month period. A person who assists another in any of the acts permitted under this act and any laboratory testing psilocybin under this act shall not be subject to state or local criminal or civil penalties. Subject to appropriation, the Department shall provide grants totaling $2 million dollars for research on the use and efficacy of psilocybin for the treatment of conditions listed in the act. The Department shall prepare annual reports for the Governor, Lieutenant Governor, and the General Assembly on the implementation and outcomes of psilocybin use under this act. No state agency shall disclose to the federal government or any unauthorized third party the statewide list or any individual information of persons who meet the requirements of this act. Additionally, this act modifies current law on the use of investigational drugs and devices for individuals with

terminal illnesses to include individuals with life-threatening or severely debilitating conditions or illnesses. Currently, investigational drugs shall not include Schedule I controlled substances. This act repeals that prohibition. Finally, this act requires the Department of Mental Health, in collaboration with a Missouri university hospital or contract research organizations conducting FDA-approved trials, to conduct a study on the efficacy of using alternative medicine and therapies, including, but not limited to, the use of psilocybin, for the treatment of veterans and first responders suffering post-traumatic stress disorder, major depressive disorder, substance use disorders, or who require end-of-life care, as described in the act. Such study shall include a study of the use of psilocybin to treat such conditions, as well as a literature review and the submission of various reports. No person participating in the study shall be subject to criminal or civil liability or sanction for participating, except in cases of gross negligence or willful misconduct.

SB 1683 McCreery
Modifies provisions relating to estates of persons receiving public benefits

This act repeals the current provisions regarding the Department of Social Services ("Department") or the MO HealthNet Division ("Division") enforcing liens on permanently institutionalized individuals for the recovery of certain Medicaid funds expended for long-term care under the federal Tax Equity and Fiscal Responsibility Act (TEFRA). Instead, this act provides that the Department or the Division shall collect the costs of medical assistance paid for permanently institutionalized individuals as provided in this act. This act provides that the current law relating to recovery of the amount of certain funds expended on behalf of a Medicaid recipient from the estate of such recipient only applies to those persons deceased on or after April 1, 1995, to August 27, 2026. For recovery from estates of persons deceased on or after August 28, 2026, this act provides that there may be no adjustments or recovery of assistance correctly paid, except for recovery from the estate of a recipient who was:
(1) Regardless of age, a resident in a nursing facility or other medical institution when the recipient received such assistance, except recovery shall be limited to assistance provided on or after March 22, 1991; or
(2) 55 years of age or older when the recipient received assistance for services provided on or after October 1, 1993, for which estate recovery is mandated under other federal law.
Any recovery allowable may be made only after the death of the surviving spouse, if any, and only at a time when the recipient has no surviving child who is under 21 years of age or is blind or has a disability.
Recovery against a recipient's estate may be made only when recovery:
(1) Would not create an undue hardship as described in the act;

(2) Is cost effective, which shall not include estates with a net value at or below $50,000 as adjusted annually by the Department of Social Services based on the federal cost of living adjustment of the Social Security Administration; and
(3) Does not violate any of the limitations set forth in federal law.
Lastly, this act provides that the Department shall make information about estate recovery and hardship exemptions easily accessible, including maintaining information about how to request a hardship exemption on its website. Additionally, on an annual basis, the Department shall publicly report on the number of estate recovery cases pursued and the number of undue hardship exemptions granted.

SB 1703 Carter
Establishes the "Student Screen-Time Standards Act" and the "Framework on Classroom Use of Screens (FOCUS) Council" regarding instructional methods in elementary schools

This act establishes the "Student Screen-Time Standards Act" and requires each school district and charter school to adopt a written policy governing screen time and the use of instructional technology for students in kindergarten through grade five. The policy shall be designed to promote students' educational interests, prevent harmful effects of excessive screen time on child development, ensure that technology supports rather than supplants foundational learning, and restore evidence-based practices. The act outlines required components of the policy, including limits on student screen time, restrictions on the use of school-issued devices, and limits on student access to internet-connected instructional technology, including laptops, tablets, software platforms, and other similar devices. The policy shall identify approved digital platforms, establish standards for student use of hands-on physical learning tools and traditional materials, outline procedures by which parents may obtain information regarding their child's screen time and technology use and limit such use, and describe the research and evidence upon which the policy is based. In developing the policy, each school district or charter school shall consider and document research on best practices in literacy instruction, instructional technology, assessment, and the role of handwriting and cursive writing in promoting literacy. Each elementary school shall notify parents and guardians annually of the adopted policy, provide parents available information regarding their child's login time and technology use upon request, and publish the policy on the school's website. Each policy shall be periodically updated and shall incorporate recommendations from a model school board policy to be developed by the "Framework on Classroom Use of Screens (FOCUS) Council" established in the act. The policy shall be implemented before the end of the 2027–28 school year and shall apply in all subsequent school years. The Literacy Advisory Council established under current law shall provide advice regarding instruction and assessment of cursive writing and reading, and shall develop recommendations for a related model policy on cursive. The Commissioner of Education shall establish a "Framework on Classroom Use of Screens (FOCUS) Council" composed of the Commissioner as chair, with appointed members representing

school boards and charter schools; elementary school principals who have completed state leadership training; teachers with expertise in reading, mathematics, and special education; parental and disability advocacy organizations; faculty from approved teacher preparation programs; a licensed pediatric mental health professional or board-certified behavior analyst; and a medical professional with expertise in child health and development. The Department of Elementary and Secondary Education shall provide staff and resources for the council. The council shall conduct a comprehensive survey and analysis of screen time and instructional technology use in public schools, and shall provide guidance on best practices and policies, as provided in the act. By July 1, 2027, the council shall submit a report containing the council's recommendations and a model school board policy on screen time and instructional technology use to the State Board of Education, the Governor, and the Joint Committee on Education. The report shall be updated at least every two years.

SB 1719 Schroer
Establishes provisions relating to health care workplace violence and advanced practice registered nurses

Only the part related to people with disabilities is summarized.

This act modifies provisions relating to the practice of advanced practice registered nursing. Specifically, prescription medications prescribed by advanced practice registered nurses ("APRNs") may include Schedule II stimulants for behavioral health patients. Under current law, collaborative practice arrangements between physicians and registered professional nurses may delegate to an APRN the authority to administer, dispense, or prescribe certain controlled substances. This act provides that the section of law providing for such agreements shall not apply to APRNs, excluding certified registered nurse anesthetists ("CRNAs"), who have been in a collaborative practice arrangement for a cumulative 2000 documented hours with a collaborating physician and whose license is in good standing. APRNs applying for licensure by endorsement may demonstrate to the Missouri State Board of Nursing completion of such hours. Additionally, any such APRN shall not be required to enter into or remain in such arrangement to practice in this state. This act also provides that an APRN's prescriptive authority shall include authority to prescribe, dispense, and administer controlled substances as provided in current law. Furthermore, the provision on prescriptive authority shall also apply to good-standing APRNs who have been in collaborative practice arrangements for a cumulative 2000 documented hours with collaborating physicians and who are no longer required to hold collaborative practice arrangements.

SB 1767 Brattin
Modifies provisions relating to alternative therapies and treatments, including psilocybin

Under this act, any person who acquires, uses, produces, possesses, transfers, or administers psilocybin for the person's own therapeutic use shall not be subject to state or local criminal or civil penalties if the person is a veteran or first responder and is 21 years of age or older and suffers from a condition listed in the act. The person shall be enrolled in a study regarding the use of psilocybin to treat such conditions and shall provide the Department of Mental Health with specified information. A facilitator shall be present during the administration of the psilocybin and the use of psilocybin shall be limited to no more than 150 milligrams of psilocybin analyte during any 12-month period. A person who assists another in any of the acts permitted under this act and any laboratory testing psilocybin under this act shall not be subject to state or local criminal or civil penalties. Subject to appropriation, the Department shall provide grants totaling $2 million dollars for research on the use and efficacy of psilocybin for the treatment of conditions listed in the act. The Department shall prepare annual reports for the Governor, Lieutenant Governor, and the General Assembly on the implementation and outcomes of psilocybin use under this act. No state agency shall disclose to the federal government or any unauthorized third party the statewide list or any individual information of persons who meet the requirements of this act. Additionally, this act modifies current law on the use of investigational drugs and devices for individuals with terminal illnesses to include individuals with life-threatening or severely debilitating conditions or illnesses. Currently, investigational drugs shall not include Schedule I controlled substances. This act repeals that prohibition. Finally, this act requires the Department of Mental Health, in collaboration with a Missouri university hospital or contract research organizations conducting FDA-approved trials, to conduct a study on the efficacy of using alternative medicine and therapies, including, but not limited to, the use of psilocybin, for the treatment of veterans and first responders suffering post-traumatic stress disorder, major depressive disorder, substance use disorders, or who require end-of-life care, as described in the act. Such study shall include a study of the use of psilocybin to treat such conditions, as well as a literature review and the submission of various reports. No person participating in the study shall be subject to criminal or civil liability or sanction for participating, except in cases of gross negligence or willful misconduct.

LEGISLATIVE UPDATE

Issue 9, March 6, 2026

Welcome to Issue 9 of the Legislative Update.

- The weekly Legislative Update provides information on disability related bills. For more details on a specific bill, please click on the bill number.
- If there has been action on a bill in the current week, the status is listed in red.
- To learn more about the legislative process consider attending the Legislative Education Project training or watching our online modules and videos.
- Please contact our office (Laura.Mueth@oa.mo.gov) if you need a different format.
- Past issues are online at Legislative Updates.
- Access to individual bill information is available on the Missouri Senate's website at Bill Search
- A glossary of legislative terms can be found at the Missouri House of Representatives Legislative Terms
- Most of the summaries are prepared by the Research Staff of the Missouri House of Representatives and Missouri Senate and are used by permission.

Note: When "incapacitated," "handicapped," etc. appear in a bill description, it reflects the terminology of the legislation, not the Governor's Council on Disability.

HB 3543 Johnson
Authorizes counties to adopt a real property homestead tax exemption for certain disabled veterans

This bill authorizes counties to adopt a real property tax exemption for veterans with a 100% service-connected disability rating, a disability rating less than 100% but through which they are unemployable and thus receive compensation at the 100% level, or who receive a statutory award from the Department of Veterans Affairs. Beginning January 1, 2027 a county may grant a tax exemption up to the maximum allowable amount. Any lost revenue can be replaces with a retail sales tax. Voters must agree to the exemption and sales tax before they can be implemented.

HB 1819 Laubinger
Establishes provisions relating to child care facilities

This bill requires the Department of Elementary and Secondary Education to establish the following for any licensed child care facility: (1) Training and rules for non-restrained safe sleep policies for children one year of age or older and children with special needs. These policies must include safety procedures for the use of weighted blankets, and prohibit such use on any child under one year of age. Additionally, no weighted blanket used in a child care facility can exceed five pounds. (2) Safe rest options for non-napping children, which must include an option for non-restrained quiet play activities or other supervised activities; and (3) A care plan for children with special needs. This care plan must be reviewed, agreed upon, signed, and annually re-evaluated by the child's parents or legal guardians, the child care facility owner or director, the child's primary care provider, and any staff member directly responsible for the care of the child. The bill provides that any child care facility caring for a child with special needs must train every staff member who is directly responsible for the care of that child on caring for a child with that specific special need. This training can count toward the required annual training hours as part of the licensed child care provider hours of training. The provisions of this bill do not apply to children under one year of age, as existing statute governs provisions relating to safe sleep policies for children under one year of age.

LEGISLATIVE UPDATE

Issue 10, March 13, 2026

Welcome to Issue 10 of the Legislative Update.

March 16-20 is the legislature's spring break. There will be no issue next week.

- The weekly Legislative Update provides information on disability related bills. For more details on a specific bill, please click on the bill number.
- If there has been action on a bill in the current week, the status is listed in red.
- To learn more about the legislative process consider attending the Legislative Education Project training or watching our online modules and videos.
- Please contact our office (Laura.Mueth@oa.mo.gov) if you need a different format.
- Past issues are online at Legislative Updates.
- Access to individual bill information is available on the Missouri Senate's website at Bill Search
- A glossary of legislative terms can be found at the Missouri House of Representatives Legislative Terms
- Most of the summaries are prepared by the Research Staff of the Missouri House of Representatives and Missouri Senate and are used by permission.

Note: When "incapacitated," "handicapped," etc. appear in a bill description, it reflects the terminology of the legislation, not the Governor's Council on Disability.

LEGISLATIVE UPDATE

Issue 13, April 10, 2026

Welcome to Issue 13 of the Legislative Update.

- The weekly Legislative Update provides information on disability related bills. For more details on a specific bill, please click on the bill number.
- If there has been action on a bill in the current week, the status is listed in red.
- To learn more about the legislative process consider attending the Legislative Education Project training or watching our online modules and videos.
- Please contact our office (Laura.Mueth@oa.mo.gov) if you need a different format.
- Past issues are online at Legislative Updates.
- Access to individual bill information is available on the Missouri Senate's website at Bill Search
- A glossary of legislative terms can be found at the Missouri House of Representatives Legislative Terms
- Most of the summaries are prepared by the Research Staff of the Missouri House of Representatives and Missouri Senate and are used by permission.

Note: When "incapacitated," "handicapped," etc. appear in a bill description, it reflects the terminology of the legislation, not the Governor's Council on Disability.

LEGISLATIVE UPDATE

Issue 14, April 17, 2026

Welcome to Issue 14 of the Legislative Update.

- The weekly Legislative Update provides information on disability related bills. For more details on a specific bill, please click on the bill number.
- If there has been action on a bill in the current week, the status is listed in red.
- To learn more about the legislative process consider attending the Legislative Education Project training or watching our online modules and videos.
- Please contact our office (Laura.Mueth@oa.mo.gov) if you need a different format.
- Past issues are online at Legislative Updates.
- Access to individual bill information is available on the Missouri Senate's website at Bill Search
- A glossary of legislative terms can be found at the Missouri House of Representatives Legislative Terms
- Most of the summaries are prepared by the Research Staff of the Missouri House of Representatives and Missouri Senate and are used by permission.

Note: When "incapacitated," "handicapped," etc. appear in a bill description, it reflects the terminology of the legislation, not the Governor's Council on Disability.

Creates new provisions relating to persons with impaired or limited ability to communicate with law enforcement

This act establishes "Mason's Law". At the time of motor vehicle registration, a resident of this state with a health condition or disability that limits or impairs the ability to effectively communicate with law enforcement may apply to the Department of Revenue for a designation that shall be associated with the person's motor vehicle license plate number and be available to law enforcement. Upon approval of the application, the Department shall notify the Missouri State Highway Patrol and the Highway Patrol shall prepare an entry in the Missouri Uniform Law Enforcement System (MULES). Such entry shall remain active for five years, unless the applicant requests such designation be removed from the system. Upon expiration of the five year period, a renewal form may be filed with the Department to renew the designation.

LEGISLATIVE UPDATE

Issue 15, April 24, 2026

Welcome to Issue 15 of the Legislative Update.

- The weekly Legislative Update provides information on disability related bills. For more details on a specific bill, please click on the bill number.
- If there has been action on a bill in the current week, the status is listed in red.
- To learn more about the legislative process consider attending the Legislative Education Project training or watching our online modules and videos.
- Please contact our office (Laura.Mueth@oa.mo.gov) if you need a different format.
- Past issues are online at Legislative Updates.
- Access to individual bill information is available on the Missouri Senate's website at Bill Search
- A glossary of legislative terms can be found at the Missouri House of Representatives Legislative Terms
- Most of the summaries are prepared by the Research Staff of the Missouri House of Representatives and Missouri Senate and are used by permission.

Note: When "incapacitated," "handicapped," etc. appear in a bill description, it reflects the terminology of the legislation, not the Governor's Council on Disability.

Governor's Council on Disability

LEGISLATIVE UPDATE

Issue 17, May 7, 2026

Welcome to Issue 17 of the Legislative Update.

The Senate was second reading some Senate Bills at 4:20 p.m. today. Those are not reflected in this issue.

There will not be an issue next week due to the legislative session concluding at 6:00 p.m. on Friday, May 15. The next issue will be sent at some point the following week.

- The weekly Legislative Update provides information on disability related bills. For more details on a specific bill, please click on the bill number.
- If there has been action on a bill in the current week, the status is listed in red.
- To learn more about the legislative process consider attending the Legislative Education Project training or watching our online modules and videos.
- Please contact our office (Laura.Mueth@oa.mo.gov) if you need a different format.
- Past issues are online at Legislative Updates.
- Access to individual bill information is available on the Missouri Senate's website at Bill Search
- A glossary of legislative terms can be found at the Missouri House of Representatives Legislative Terms
- Most of the summaries are prepared by the Research Staff of the Missouri House of Representatives and Missouri Senate and are used by permission.

Note: When "incapacitated," "handicapped," etc. appear in a bill description, it reflects the terminology of the legislation, not the Governor's Council on Disability.

Governor's Council on Disability

LEGISLATIVE UPDATE

Issue 18, May 19, 2026

Welcome to Issue 18 of the Legislative Update.

The legislative session is complete. The next issue will be sent in July after Governor Kehoe has taken action on all Truly Agreed To and Finally Passed bills.

- The weekly Legislative Update provides information on disability related bills. For more details on a specific bill, please click on the bill number.
- If there has been action on a bill in the current week, the status is listed in red.
- To learn more about the legislative process consider attending the Legislative Education Project training or watching our online modules and videos.
- Please contact our office (Laura.Mueth@oa.mo.gov) if you need a different format.
- Past issues are online at Legislative Updates.
- Access to individual bill information is available on the Missouri Senate's website at Bill Search
- A glossary of legislative terms can be found at the Missouri House of Representatives Legislative Terms
- Most of the summaries are prepared by the Research Staff of the Missouri House of Representatives and Missouri Senate and are used by permission.

Note: When "incapacitated," "handicapped," etc. appear in a bill description, it reflects the terminology of the legislation, not the Governor's Council on Disability.

Governor's Council on Disability

LEGISLATIVE UPDATE

Issue 19, July 17, 2026

Welcome to Issue 19 of the Legislative Update.

This issue only includes legislation that had action by Governor Kehoe. It is the final issue for the 2026 legislative session.

- The weekly Legislative Update provides information on disability related bills. For more details on a specific bill, please click on the bill number.
- If there has been action on a bill in the current week, the status is listed in red.
- To learn more about the legislative process consider attending the Legislative Education Project training or watching our online modules and videos.
- Please contact our office (Laura.Mueth@oa.mo.gov) if you need a different format.
- Past issues are online at Legislative Updates.
- Access to individual bill information is available on the Missouri Senate's website at Bill Search
- A glossary of legislative terms can be found at the Missouri House of Representatives Legislative Terms
- Most of the summaries are prepared by the Research Staff of the Missouri House of Representatives and Missouri Senate and are used by permission.

Note: When "incapacitated," "handicapped," etc. appear in a bill description, it reflects the terminology of the legislation, not the Governor's Council on Disability.
